

Industry Playbook

# Infrastructure Edition

Market Insights, Best Practices, Player Overview along the Value Chain

March 2025

# Infrastructure is a massive IoT industry requiring global coverage

Relevance of Infrastructure use cases for the IoT market:

1NCE's footprint in the Infrastructure sector:

Sources: Market data courtesy of Transforma Insights, 1NCE Customer Insights  
As of Jan 2025, 1NCE served 23,000 customers of which 8% are active in the infrastructure sector.  
Common use cases supported are infrastructure monitoring, smart building, street lighting, waste management, etc.

# The Infrastructure industry is a heavy weight in IoT

## 8% of our customers are building Infrastructure solutions

	Customers %	Typical applications			Selected customers	
Utilities		<ul style="list-style-type: none"> <li>Electricity meters</li> <li>Gas meters</li> </ul>	<ul style="list-style-type: none"> <li>Water meters</li> <li>Leak prevention</li> </ul>	<ul style="list-style-type: none"> <li>Network monitoring</li> <li>Smart grid</li> </ul>

# Key IoT use cases in Infrastructure

## Infrastructure Monitoring

Infrastructure management involves overseeing critical systems like roads, bridges, HVAC, and energy management with IoT technology. Smart monitoring uses sensors and real-time analytics to detect issues, predict maintenance, and optimize resources.

## Smart Building

Smart building and building automation imply the automated control of electrical, mechanical, and HVAC systems within buildings for energy efficiency and occupant comfort. Sensors and IoT devices adjust lighting, temperature, and ventilation based on real-time conditions and occupancy.

## Street Lighting

IoT-based smart street lighting systems contribute to public safety and energy efficiency by using sensors, adaptive brightness, and remote control. They can automatically adjust illumination based on time, weather, or activity, reducing energy consumption and costs.

# Key IoT use cases in Infrastructure

## Waste Management

Smart waste management solutions use IoT-enabled sensors and data analytics to optimize collection routes and monitor bin levels in real time. This reduces operational costs, minimizes environmental impact, and improves service quality. Advanced systems also enable waste sorting and recycling for more sustainability..

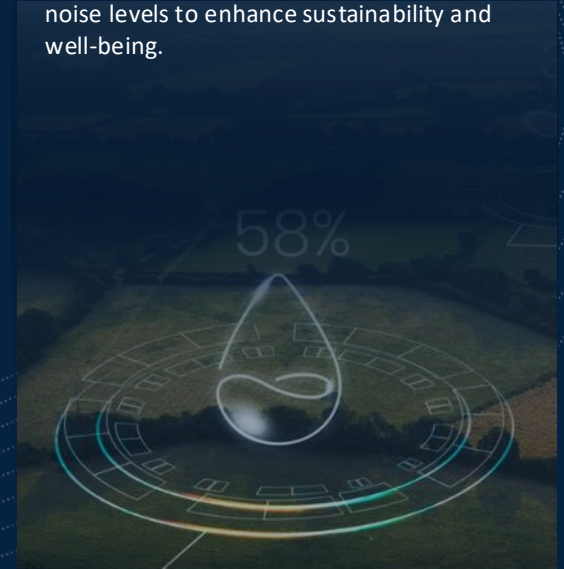

## Community Heating

Efficient monitoring, distribution, and metering of heat in community heating grids, ensuring cost-effective and eco-friendly solutions.

## Environmental Monitoring

Real-time monitoring of environmental metrics like temperature, air quality, and noise levels to enhance sustainability and well-being.

# Overview of players with traction in the market

## Key players in HVAC & Energy Management

Player	Logo	Location	Description	Website
75F		USA	Smart HVAC and energy optimization provider	<a href="#">Link</a>
Autani		USA	Energy management and building automation provider	<a href="#">Link</a>
Automated Logic		USA	Building automation and HVAC control service	<a href="#">Link</a>
Building IQ		Australia	AI-based HVAC and energy optimization company	<a href="#">Link</a>
Cimetrics		USA	Energy management and HVAC analytics provider	<a href="#">Link</a>
Distech Controls		Canada	Integrated systems for HVAC and energy management	<a href="#">Link</a>
Entouch Controls		USA	Cloud-based energy and HVAC management system	<a href="#">Link</a>
KMC Controls		USA	HVAC efficiency provider	<a href="#">Link</a>
Lynxpring		USA	Advanced HVAC and energy management systems	<a href="#">Link</a>

# Understanding the roles of players along the value chain

Creating connected products in the Infrastructure industry means to maneuver through the IoT ecosystem

# 1NCE has a dedicated offering for Infrastructure

	Typical customer requirements	Standard offerings	1NCE Offering
Pricing	<ul style="list-style-type: none"><li>• Single SKU</li><li>• Cost transparency</li><li>• Often only low data use cases</li></ul>	<ul style="list-style-type: none"><li>• Multiple suppliers for each region</li><li>• Monthly fees, overage charges</li><li>• Data selling focus, high data preferred</li></ul>	<ul style="list-style-type: none"><li>✓ All-in-1: \$10/10 years of service</li><li>✓ Transparent: no monthly fees</li><li>✓ Lifetime Flat: 500 MB, 250 SMS</li></ul>
Coverage	<ul style="list-style-type: none"><li>• Global coverage</li><li>• Support of LPWA technology</li><li>• Multiple network and operator switch</li></ul>	<ul style="list-style-type: none"><li>• Country group pricing, zoning</li><li>• No or limited NB-IoT and LTE-M support</li><li>• Different SIMs for different regions</li></ul>	<ul style="list-style-type: none"><li>✓ 173 countries coverage; no zoning</li><li>✓ +50 LPWA networks supported</li><li>✓ Global SIM with eUICC support</li></ul>
Service	<ul style="list-style-type: none"><li>• Device Management</li><li>• API support</li><li>• Interoperability</li></ul>	<ul style="list-style-type: none"><li>• Device Mgmt not included</li><li>• API use not available or at high costs</li><li>• No compatibility with 3rd party software</li></ul>	<ul style="list-style-type: none"><li>✓ Included in 1NCE OS</li><li>✓ All functions exposable through API</li><li>✓ Can be natively used with 1NCE Plugins</li></ul>

# We bring your data from the sensor to the cloud

Your  
Devices

1NCE Platform

Connect

- 500 MB
- 250 SMS
- 173 countries
- VPN / APN
- Data Streamer

OS

- Cloud Integration
- Location Services
- Energy Saver
- APIs
- Device SDKs

\$10 for 10 years

Your  
Data

Business

\$1.00

Industrial

\$2.00

Chip

Sensor Data

# Our 1NCE Lifetime Flat is the new standard in IoT

## 1NCE IoT Lifetime Flat

10 years of service including:

### 1NCE Connect

- 500 MB
- 250 SMS
- 173 countries coverage
- Open VPN
- API Usage & APN
- Data Streamer
- Monthly data limits
- IMEI Lock
- Freedom to Switch
- 3 months grace period

### 1NCE OS

- Cloud Integrator
- Device Locator
- Energy Saver
- Device Authenticator
- Device Inspector
- Device SDKs and Blueprints
- LwM2M Service
- Device Controller
- Admin Logs
- Access to Developer Hub (Documentation)

One time fee: \$10.00

## SIM Options

### Business

\$1.00

### Industrial

\$2.00

### Chip

\$2.50

- ✓ Already covers all requirements for most IoT uses cases
- ✓ Already sold to 23,000+ customers in 100 countries
- ✓ Widely used across all industries and verticals
- ✓ No minimum order quantities\*

## Optional Add-Ons and Extensions

### Data Top-Up

Additional 500 MB and 250 SMS

+\$10.00

### Lifetime Extension

Additional 10 years, 500 MB and 250 SMS

+\$10.00

### High Data Option

High throughput 25Mbit/s

\$5.00 / GB

### Advanced Device Locator

High-res network location service

### Plugins

Integrated 3rd Party Software

Free Trial

### High Security Data Routing

IPSec / VPC Peering services

\$1,800+ / yr

- ✓ Add-Ons trusted by 4,000+ advanced users
- ✓ Co-developed with and for customers

# About 1NCE

## Fast

23,000+ customers  
won in 7 years

400+ team  
across Europe,  
Asia and US

30 million  
managed endpoints

+100% year on year average growth

*"1NCE launched its flat rate life-time connectivity offering for connected devices in 2018 and has achieved unparalleled growth in the past two years."*

*Johan Fagerberg, CEO, Berg Insight*

## Strong

- Global access under a strong  
a family of local network operators

– EU

Deutsche Telekom AG

– USA

T-Mobile US

– Asia

– Bell

Bell

## Everywhere

Can be used for multiple IoT  
applications

Smart  
Agriculture

Waste  
Management

Industrial  
Automation

Fleet  
Telematics

Smart City

Tracking

AR / VR

Smart  
Buildings

Infrastructure  
monitoring

Smart  
Metering

Remote  
Monitoring

Tracking  
Devices

1NCE is a company offering a software platform for connected products that delivers future-proof, hassle-free IoT in 173 countries and regions. The software platform enables customers to easily, securely and reliably collect device data and turn it into actionable intelligence. This accelerates time-to-market for data collection projects by months, increases device lifetime by years, and allows efficient management of sensors from initial deployment to the end of the product lifecycle. More than 23,000 users and 60 Fortune 500 companies trust 1NCE with 30 million connected products worldwide.
