FLOORS BEYOND EXPECTATIONS

Kährs LVT Design & Inspiration Price Guide

Floors beyond expectations

The homes we live in are never just bricks and mortar or glass and steel; they also represent chapters of our lives and places of sanctuary. Within this inspiration and design guide you will find floors that can transform the way a home looks, feels and is lived in. Floors that go beyond your expectations.

WWW.KAHR.S.COM

Floors everyone can enjoy

Our home is where we live, breathe, sleep and where our children and pets grow up. Naturally, we want our indoor environment to promote comfort and health. That's why we've made our floors phthalate-free.

The floors in this guide require minimal maintenance and are made of waterproof material. The ceramic coating provides a smooth surface so also makes the floors resistant to daily wear and tear, preventing the floor from getting ingrained with dirt and grime.

Whatever you and your family including your pets have planned, our floors will live with you for generations.

170 years of wood. Reimagined.

Beautiful floors are about the details

Kährs have a 170 year old passion around designing and producing beautiful long-lasting floors.

Details are important to us as they are to you, such as; beautiful colour hues, large plank sizes, pattern designs, soft bevel edges & graining texture. We create our floors in different grades from calm to rustic allowing you to choose your own style to suit your home.

Details on the surface are where we bring our expertise; highlighting knots, sealing the surface with an Ultra Matt finish to replicate the soft sheen of an oiled floor and protected by our unique ceramic coating. It is a given we also make our floors soft underfoot and quiet to walk on.

Design finishes to look out for in this guide

Our floors are interior design products, and just like choosing paint finishes or furniture we work hard at offering you the surface finish and colour tones you require. Whether you're planning a full renovation or just dreaming for now, let us help you spark your imagination with this guide.

✔ Colour tones

We have worked hard to describe every detail on the colour tones on each of our floor designs, where we explain details around the base colour, undertones and the main hues. What ever colour scheme you are designing we have a floor to finish it off.

✔ Ultra matt finish

It is amazing how a single floor can vary when different finishes are applied. Love the current popular dead flat paint appearance? Then select one of our floors where we highlight it has an Ultra Matt sheen finish which has around a 3% sheen level, making the floor feel and look as if it was made from newly sawn timber.

✔ Brushed texture

By using the most advanced EIR technology we can bring depth to the surface of the floor creating a slightly brushed textured finish, so look out for products where we highlighted they are EIR Embossed.

Now more than ever people are asking “whats in my floor?”

All the floors shown in this guide come with the highest level of chemical testing, below we explain what each Eco test certificate covers for your peace of mind.

The M1 emission class is a Finnish certification for building materials, including flooring, signifying low emissions of volatile organic compounds (VOCs) into the indoor air. Products with the M1 label are considered to have very low emissions and contribute to a healthier indoor environment.

FloorScore is an indoor air quality (IAQ) certification for flooring. It signifies that a product has been independently tested and meets strict standards for volatile organic compound (VOC) emissions, ensuring it contributes to healthier indoor air.

The “A+” eco label for flooring measures indoor air quality. An A+ rating, the highest possible, signifies that the flooring emits minimal to no pollutants, contributing to healthier indoor air.

ENVIRONMENTAL RESPONSIBILITY

Kährs leading the way on flooring sustainability

We feel that not only is it important for sustainability to be one of the main pillars of our business, but that we also have an environmental responsibility. Choosing a Kährs floor is a smart and green choice for the environment, both indoors and for our planet.

Kährs are one of the world’s oldest and most innovative manufacturers of flooring. Our innovations have radically transformed the global flooring industry and contributed towards sustainable development. We are always trying to find ways to make our production process more environmentally friendly.

Through the environmentally conscious production, we do our best to continually drive sustainable development in the flooring industry.

To find out more on how we lead the flooring industry on offering transparency on our environmental responsibilities, download our environmental certifications and learn more about what sustainability means to us at Kährs.

Responsibility at every step

Embracing the highest standards and regulations we take responsibility throughout our value chain. Together with our stakeholders, we deliver a positive impact on people and planet.

Natural designs

Designs and colours inspired by nature for increased well-being through biophilia.

Healthy homes & interiors

Responsible chemical use ensures healthy indoor air-quality and homes.

Long-lasting quality

All Kährs floors can either be maintained, repaired, and refurbished to extend their lifetime.

Transparent climate footprint

A target of 100% Environmentally Product Declared products, giving transparency in how much a Kährs product will contribute to reducing the CO2 impact.

Contribute to better living

Certified and environmentally declared floors which contribute to environmentally-friendly homes and buildings.

Powered by renewables

From 2024 all Kährs flooring production is powered through renewable energy.

Closing the loop

The majority of Kährs floors consist of either renewable materials, recycled materials or materials which can be recycled into new floors or new products.

PRODUCT OVERVIEW

Our product features

Ceramic coating

Most LVT's sold in UK come with a low-quality PU coating offering little resistant to dirt and stains, our ceramic coating ensures our floors are scratch, dirt and stain resistant.

Acoustic underlay

Apart from our 120 x 720 x 5mm herringbones all our Click LVT floors come with an acoustic underlay achieving up to 20DBs, ensuring that they are not only soft underfoot but quiet to walk on.

Warranties

We offer a 30-year warranty for our 0.7mm wear layer designs, 20 years for our 0.55mm designs & 10 years for our 0.3mm designs.

Easy fit

All our Click products are designed to be easy to fit, with little preparation or waiting time after installation. Our Click products if correctly installed around doorways do not need a threshold bar at doorways.

Soft micro bevel

All our LVT floors feature a soft micro bevel that ensures each plank or tile stands out whilst creating no issues with maintenance or cleaning.

Brushed features

EIR embossing technology creates a textured almost gentle brushing effect to create an authentic look and feel to our wood Plank & Pattern designs.

Phthalate free

All our LVT floors are Phthalate free supporting better indoor air quality.

Waterproof material

All our LVT floors are made from waterproof material and suited for all rooms in the home including bathrooms, kitchens & hallways.

For under floor heating

All our LVT floors are warranted for all types of under floor heating systems including electric and water-pump systems.

Conservatory friendly

Our Gluedown designs can be installed into large sunrooms or conservatories by using special heat sensitive adhesive without any issues. Our Click products can also be installed into sunrooms and conservatories if the heat is regulated.

Low sheen

Some of our LVT designs feature our Ultra Matt finish ensuring one of the lowest sheen levels in the market.

So many design options

In addition to our wood Planks, we have Herringbone & Chevron pattern options to create endless design opportunities to help create a unique floor.

Proven quality

Quality is easy to promise, but only time can truly validate that promise. Lasting quality isn't measured in days or months, but in years and decades. With a heritage spanning almost 170 years, Kährs has consistently upheld our commitment to quality.

It's not just a claim for us - it's a legacy we've kept cultivating. It's a circular force of quality. Every floor we produce reflects this dedication. Crafted with precision and care, our floors embodies this pursuit. But the floors are merely the end result of something else - an attitude. An attitude that stipulates quality in all the steps of the process - internally and externally: purchase, production, sales and customer service.

No matter where, we provide an experience that withstands the test of time, not just for today, but for tomorrow and all the days beyond. As market leader it's something that's expected from us. If we want to keep that position it's our responsibility to not just meet these expectations. **But to go beyond them.**

Our warranty and promise to you

We don't work with any gimmicks around our warranties such as offers of lifetime warranties that last for only 10 years. You can see below we offer simple transparent warranties around all our LVT floors and our promise to you is that they are genuine.

Depending which product you choose we offer:

**0.7 wear layer: 30 year residential warranty
15 year commercial warranty**

**0.55 wear layer: 20 year residential warranty
10 year commercial warranty**

**0.3 wear layer: 10 year residential warranty
5 year commercial warranty**

All our LVT flooring products are suitable for any type of under floor heating system which is covered within your warranty.

Visit our website and find out more on our warranties and how to register them with an approved Kährs dealer.

How to choose your perfect floor

Our best advice when it comes to choosing a floor: go with your heart.

However, there are some important aspects to consider in the selection process, and to help, we have compiled a short checklist to guide you.

The best thing to do is to visit one of our approved retailers, as nothing beats seeing and feeling our floors to get a true grasp of their design features.

KÄHRS FLOOR PLANNER

We developed a digital floor planner to help you choose the ideal floor for your home. It allows you to quickly and easily upload an image of your interior, and then simply browse around our broad portfolio of floors and try them out until you find your favourite. This technology enables you to get a real impression of what the floor will look like in your home.

Download floor planner.

Calm or rustic grades?

Clean, calm and elegant – or rustic, rich in patina, knots and cracks? Kährs offers a selection of different designs, each with a unique character.

CALM

Our calm grade designs are where you will find floors that have a clean calm grade wood design, achieving a sophisticated look in any interior.

WARM & LIVELY

Our warm & lively wood collections feature warm and lively wood grading. The authentic wood designs are enhanced by realistic wood graining and knots

RUSTIC

Our rustic grade wood collections offer characterful rustic wood designs with lots of colour variation enhanced by registered embossing for an authentic look and feel.

What format is best for you?

Pattern options

On each product page you will see each format our designs come in for easy reference.

Choose from one of our classic Chevron or Herringbone pattern designs with an option to match with the same colour Plank design.

GLUEDOWN DESIGNS

Our Gluedown wood & stone formats allow you to create your own design floor. You can easily add in feature borders and work with different pattern designs due to the construction format.

Gluedown formats are warranted for all rooms within the home including large sunrooms or conservatories and are suitable for any type of under floor heating system. Due to being glued to the subfloor, Gluedown format constructions require no expansion details and can be installed directly up to walls.

CLICK DESIGNS

Our Rigid click wood & stone designs allow you to install a floor without any adhesive. All our Click designs apart from our 120 x 720 x 5mm herringbones, come with an integrated soundproof and waterproof underlay providing you with one of the quietest floors to walk on in the market in addition to being soft underfoot.

Our click designs require a small expansion detail that can be hidden by one of our matching mouldings. The Click designs come the latest technology in locking joint systems that guarantees your floor will not gap and can be easily uplifted and relayed if need be.

Click formats are warranted for all rooms within the home including large sunrooms or conservatories where the room temperature is regulated. All Click formats are suitable for any type of under floor heating system.

HERRINGBONE CLICK

Herringbone Click Collection

Our large, modern Click herringbone designs provide a contemporary alternative to the smaller, more traditional Gluedown herringbones featured in this guide.

With an impressive plank size of 120 × 720mm, they create a bold and striking floor statement. Our Click herringbones come with key benefit that they can be installed either by Gluing or by floating.

Price: £51.95 m2 INC VAT for all herringbone click products

RUSTIC GRADES

Rustic Plank SPC Click & Gluedown Wood Collection

Handcraft is a part of Kährs' DNA and with our roots in the Nordics we created Nordic Classic Collection as a tribute to our heritage. In a wide range of grounded colours, the collection reflects the diverse landscape of the north with inspiration from the light dunes, long coastlines, deep forests, and high mountains found in our northern landscapes. EIR Synchronie embossing technology creates a dynamic design which enhances the feeling of a rustic and lifelike structure of real wood floors.

CLEANING YOUR FLOOR

Designed for peace of mind

With our special ceramic coating ensuring the floor remains highly resistant to scratches, dirt and stains, our LVT floors are designed to offer peace of mind that your floor will not only look great but last for years to come.

There are 4 easy steps to keeping your floor maintained and clean.

1 Entrance matting
85% of all dirt comes from outside and preventing it from getting inside by using a quality doormat, extends the lifetime of your floor.

2 Protective felt pads
Dragging furniture can scrape even the toughest of LVT floors, applying simple felt pads will stop this.

3 Light sweeping or vacuuming
When required ensures no loose grit is on the floor.

4 Spray cleaned
With a low pH neutral cleaner using a spray mop is all that is needed to clean your floor.

Technical support

A Kährs floor installed following our installation & maintenance guidelines will last for generations.

Kährs are seen as the experts in how to offer guidance on how an LVT floor should be installed and we provide everything that may be needed by your installer and for yourself on how to install and maintain your floor.

You can download all our installation and maintenance manuals from our website or contact us with any questions you have at sales@kahrs.com
