More Valuable Extras

CAPTRUST at Work

CAPTRUST offers point-in-time financial advice for life events. Find financial resources that address planning, saving, investing and retiring, throughout all career stages.

Business Travel Accident

In the event that you are injured while traveling for business, this benefit can help you and your beneficiaries with any financial strain. You and/or your beneficiary will receive five times your base salary, up to a maximum of \$1,750,000. Business travel accident insurance is provided to all employees free of charge. Intact provides business travel accident insurance to you automatically—you do not have to enroll in this coverage.

Health Equity Commuter Transportation Benefit

Intact's commuter program makes it easy for you to save money on your commuting costs. If you take public transportation, ride in a vanpool or pay to park, this plan helps you use pre-tax dollars and save on your commuting costs! All employees are eligible to participate in the commuter program.

How it works: Your pre-tax payroll deductions will be taken automatically from your last paycheck of the month. Each year, you can set aside pre-tax funds to pay for qualified parking and public transportation expenses (bus, train, subway, ferry, etc.) up to IRS limits. If your expenses exceed the pre-tax limits, the balance will be taken from your paycheck on an after-tax basis.

You have the option to have your transportation passes mailed directly to your home. For parking expenses, you can choose to pay the provider directly, which works like bill payments and can be recurring. You may also request a voucher that is made out to the transit authority and is valid for 13 months. The voucher is primarily designed for those with inconsistent transit commuting expenses because it can be issued in multiple quantities and denominations.
