

## **VIA equity establishes Continuation Vehicle to support next growth chapter for Continia Software**

VIA equity (“VIA”) is pleased to announce the successful continuation of its investment in Continia Software A/S (“Continia” or the “Company”) through the establishment of VIA equity Fund C K/S (“Fund C”), a newly formed continuation vehicle managed by VIA. The transaction is further supported by VIA equity Fund V K/S, as well as the Continia management team, board, and employees.

Continia has been part of VIA equity’s portfolio since 2018 and has demonstrated strong and consistent growth through both organic development and strategic acquisitions. Today, Continia is the leading SaaS provider of Financial Process Automation solutions embedded into Microsoft Dynamics 365 Business Central, serving more than 20,000 customers globally through a broad and trusted partner network.

The transaction allows VIA equity to continue as an active investor in Continia, alongside the management team, and to support the company in its next growth phase with additional capital and a renewed investment horizon.

“It is both exciting and affirming that VIA has chosen to continue as an active investment partner in Continia Software. We have greatly appreciated the collaboration, and the support provided over the past seven years, and we are very much looking forward to realizing some of our many ambitions together with VIA, as we execute our strategy towards 2030”, says Henrik Lærke, CEO of Continia

“With the establishment of VIA equity Fund C, we are thrilled to extend our partnership with the Continia team and to back their ambitious plans for future growth and innovation,” says Benjamin Kramarz, Managing Partner at VIA equity.

The transaction marks the seventh exit for VIA equity Fund III, delivering strong returns to investors and underlining VIA equity’s continued ability to transform and grow technology-driven companies into market leaders.

Evercore and Kromann Reumert advised VIA on the sale of Continia, and the establishment of Fund C.
