

WeKomply acquires Granite to strengthen its governance, risk and compliance software offering

Tampere, Finland – September 28, 2026 – WeKomply, a leading Northern European provider of compliance, risk, and quality management software solutions and a portfolio company of VIA equity, has acquired Granite Partners Oy (“Granite”), a Finnish provider of governance, risk, and compliance (“GRC”) software.

The acquisition adds a comprehensive GRC platform to WeKomply’s existing offering, further strengthening the group’s capabilities across risk, quality, HSE and operational compliance. Granite also strengthens WeKomply’s position in Northern Europe and expands the group’s capabilities in areas of growing importance to organisations facing increasingly complex regulatory and risk environments. The acquisition marks another step in the continued development of WeKomply as a leading Northern European compliance software group, combining organic growth with strategic acquisitions to broaden its offering and strengthen its market position.

Founded in 2005 and headquartered in Tampere, Granite provides a cloud-based platform that helps organisations replace spreadsheets and fragmented processes with practical, integrated software for managing risk and compliance. The platform covers areas including enterprise and third-party risk management, audit management, IT risk and compliance, supported by automated workflows and audit-ready reporting. Built and hosted entirely in Europe, Granite serves more than 250 private and public-sector organisations and has more than 30,000 users each month.

Granite supports its customers in identifying, assessing, tracking and acting on risk . This has translated into long-standing customer relationships and a loyal user base in Finland and internationally. As part of WeKomply, Granite will continue to develop its platform while gaining additional resources and capabilities to accelerate its growth in Finland and across Europe.

“Granite has built a strong European GRC platform that customers rely on to manage risk and compliance, backed by a talented and experienced team,” says Peter Thorlund Haahr, Partner at VIA equity and board member of WeKomply. “Granite is a strong strategic fit with WeKomply, adding important capabilities to our existing offering while further strengthening our presence in Northern Europe. We are delighted to welcome the Granite team to WeKomply and look forward to supporting the continued development and growth of the business.”

For Granite’s customers, the company, team and platform will remain in place. As part of WeKomply, Granite will gain access to additional capabilities and resources across product development, technology and go-to-market, as well as opportunities to collaborate with other specialised brands across the group.

“Joining WeKomply is a great fit for us. They share our belief that risk management and compliance should be practical and within reach for every organisation,” says Teppo Kattilakoski, CEO of Granite. “We’ve spent two decades building Granite into a platform that customers across Finland and Europe trust. Becoming part of WeKomply gives us the backing to invest further in the product, move faster, and reach wider. We’re looking forward to what we can build together.”

Granite’s customers can continue to expect the same high quality of service and close customer relationships, now supported by the broader resources and capabilities of WeKomply.
