VIA equity acquires evasys

Copenhagen, 23 July 2026 – DRS Investment SE, the majority shareholder of EvaSys Holding GmbH, the parent company of Lüneburg-based evasys, sold its stake alongside the other shareholders to VIA equity.

For almost 30 years, evasys has ranked among the world's leading providers of web-based software for the automated delivery of surveys and examinations in higher education and teaching, in healthcare and in the public sector. With its products evasys, evaexam and qurricula, the company is, by its own account, the only provider worldwide to automate both survey and examination processes end to end. evasys today employs more than 60 people at its locations in Lüneburg, Edinburgh and Budapest.

Dr. Andreas Spiegel, founder and Managing Director of DRS Investment SE, says: "*Together with the management team, we have turned evasys into a modern, profitably growing SaaS provider with a cleanly settled leadership succession. With VIA equity, we are handing the company over to a partner ideally placed to support the next phase of growth with capital and deep software expertise.*"

Sebastian Maciejewski, Partner at VIA equity, adds: "*Evasys impresses us with its strong market position, its broad international customer base and its experienced management team, which has consistently developed the company towards sustainable growth in recent years. We look forward to driving further expansion both internationally and in the healthcare and public sectors, and to supporting further product innovation, particularly in AI-powered analytics.*"

DRS and its shareholders were advised by MCF Corporate Finance as M&A advisor.

VIA equity was supported by Noerr (legal), Astera Legal (financing legal), KPMG (tax and structuring), PwC (finance), TNG (software), CODEX Partners (commercial), and yàmi (debt advisory).

About evasys
Founded in 1996 and headquartered in Lüneburg, evasys is the market leader for web-based software for evaluation, examination and quality management in higher education in the DACH region. The company has established a worldwide customer base across higher education, healthcare and the public sector. Evasys automates a wide range of use cases relating to evaluation and benchmarking – concerning the quality of education and medical care and their effectiveness, as well as compliance with regulatory processes. Evasys today employs more than 60 people at its locations in Lüneburg, Edinburgh and Budapest.

About DRS Investment SE

DRS Investment SE is a private investment company focused on software and technology-enabled services businesses (“tech-enabled services”). Founded in 2017 by entrepreneur and investor Dr. Andreas Spiegel, DRS supports its portfolio companies in their long-term development. Originally specialized in software companies and financed with the founders’ private funds, DRS – backed by international institutional investors – is increasingly also investing in scalable service platforms that use technology to enable operational excellence and sustainable value creation. The aim is the targeted build-up of a portfolio of profitable, high-growth companies with clear technological differentiators.
