

WeKomply partners with D4 to strengthen its growing suite of quality management software solutions

Copenhagen – July 2, 2026 – WeKomply, a leading Nordic provider of compliance and risk management software solutions and a portfolio company of VIA equity, has partnered with D4, a Danish provider of a digital quality management platform (Quality Management System – QMS). The platform supports complex documentation requirements and helps maintain high quality standards in regulated industries.

The partnership strengthens WeKomply's position in the Nordic compliance software market and supports its strategy of helping customers digitalize processes and workflows related to compliance, quality assurance, and risk management, while improving operational efficiency.

Founded in 2000, D4 provides a mission-critical QMS platform serving customers across a range of highly regulated industries. The platform is deeply embedded in customers' day-to-day operations, resulting in long-standing customer relationships, strong retention, and a leading market position in Denmark.

Over the past two decades, D4 has built a strong organization serving a diversified and compliance-driven customer base across the public sector, pharmaceuticals, manufacturing, and other regulated industries. As a recognized leader in its niche, D4 is now joining forces with WeKomply to accelerate its next phase of growth.

“D4 is exactly the type of company we are looking to partner with: a market leader with mission-critical software, loyal customers, and a talented team with deep domain expertise,” says Peter Thorlund Haahr, Board Member of WeKomply and Partner at VIA equity. *“The addition of D4 strengthens our position in quality management software and further expands our ability to support customers across the full spectrum of compliance, quality, and risk management. We are excited to welcome the entire D4 team to WeKomply and look forward to building the future together.”*

Customers of D4 will continue to work with the same trusted team and benefit from the company's strong customer-first culture and commitment to quality. As part of WeKomply, D4 will gain access to additional resources, expertise, and best practices across technology, product development, customer success, and commercial operations. Together, the companies are well positioned to accelerate innovation, expand their market presence, and deliver even greater value to customers, employees, and partners.

“We are excited to become part of WeKomply and to join a group that shares our commitment to helping organizations manage quality, compliance, and critical business processes in a smarter and more efficient way. Over the past 25 years, we have built D4 into a trusted quality management platform with a strong position in Denmark and long-standing relationships with customers across highly regulated industries. Joining forces with WeKomply marks an important new chapter for D4, creating opportunities to further strengthen our product offering, accelerate innovation, and expand our reach, while continuing to deliver the high level of service and support our customers know and value. We look forward to building the future together with the WeKomply team” says Niels-Richard Christensen, board member, D4.
