PRESS RELEASE

VIA equity closes oversubscribed Fund VI at EUR 350 million

Copenhagen, Denmark – July 14, 2026

VIA equity is pleased to announce the first and final closing of VIA equity Fund VI at EUR 350 million, representing a 40% increase over VIA equity Fund V and continuing a consistent pattern of disciplined fund growth across the firm’s 20-year history.

Fund VI was oversubscribed and reached its final close within a few months after launch, reflecting strong demand from both existing and new investors.

Managing Partner Benjamin Kramarz comments:

“The successful closing of Fund VI is a testament to the confidence our investors place in VIA equity’s team, strategy and track record. We are particularly proud that 18 out of 19 investors from Fund V chose to recommit to Fund VI. As a matter of fact, approximately 90% of Fund VI commitments were provided by existing investors, demonstrating the strength of our long-term investor relationships and the continued belief in our ability to create value.”

VIA equity Fund VI is backed by a strong group of acknowledged investors including J.P. Morgan Global Alternatives, Five Arrows, eQ, Cubera, Nordea, Gaardboe-Jensen Family Office, RAG-Stiftung, Chr. Augustinus Fabrikker, Private Equity Club, AKF Invest CPH, Penguin Capital, Dansk Vækstkapital, Abegg & Co, INTERA Investments, and Bregal Anthos, among others.

“The composition of Fund VI reflects both the quality of our existing investor base and the increasing international recognition of VIA equity,” Benjamin Kramarz continues.

The successful fundraising follows a period of strong activity across VIA equity’s Fund V vintage, during which the firm completed multiple platform investments and continued to support the growth and development of its portfolio companies across the Nordics and DACH region.

VIA equity's strategy remains unchanged, as it has been for the past 20 years. The firm continues to focus exclusively on profitable software and IT companies across the Nordics and DACH region. VIA equity Fund VI will finance all new platform investments that are signed going forward.
