A smarter way to manage your farm finances

A new specialised service leveraging the best of farm software and financial advice to help ambitious farmers better understand the key performance indicators for their business.

A complete online system to track livestock and crop production, farm budgeting and forecasting, together with a support service that makes it easy to access your financial information in real time and make better decisions.

One team, one ledger

With all your data in one place, you can collaborate with your advisors and stakeholders using real-time financial information.

Better conversations

More time on planning for the future, less time looking back. What will your farm business look like three years from now?

Improved efficiency

Forecasting and budgeting is easier and more efficient.

Time-saving

Automatic data feeds means less time spent inputting and more time to manage your farm.

Figured

World leading farm accounting and financial management software.

“Ifac’s service goes beyond the traditional tax accountant. Their service matches my plans for the future of my farm with top class tax planning”

Pat Murphy

Beef and Dairy farmer

Dairy Farmers

can track milk production and instantly
update budgets when milk prices change.

Livestock Farmers

can produce financial livestock
production reports.

Tillage Farmers

can monitor profitability on a crop or
field basis.

The more you know, the more you control

Track farm production

Track livestock, crop and milk production sales against operational expenses.

Consolidated Reporting

Group multi-entity organisations for streamlined reporting.

Real-time data

The whole farm team can collaborate online with one set of real-time data

Rolling Forecast

Forecast cashflow, profit and loss, and balance sheet at any time.

Free support and training

Receive training and on-going guidance from our specialists.

Multi-farm feature

If you have more than one farm holding, you can see how each individual holding is performing.

Founded in 1975, *ifac* is Ireland's farming, food and agribusiness specialist professional service firm. We are an award winning employer and one of Ireland's Top Ten Accountancy firms operating from more than 30 offices nationwide.

We bring the full depth and breadth of our financial expertise and sectoral experience to play an integral role in your business. We pro-actively work with you to advise on sound financial practices, provide foresight to anticipate issues, and identify opportunities to help you grow.

Figured is a leading farm financial management software that is helping farming teams across New Zealand, Australia, the United Kingdom, the United States and now Ireland to better manage the profitability of their operations.

Ifac and Figured working together to help farmers make better financial decisions and more profit.
