 HULT.EDU/MBA

The MBA for Those Made to Do

Employers are no longer as interested in what graduates know, or how good they are at exams. More than ever, employers want to see what graduates can do and are looking for people with human skills and adaptability. Traditional business education wasn't built for today's reality. Hult is.

We believe that humans learn best by doing. Because mastering a skill—any skill, from riding a bike to leading a team, takes practice. We progress when we're working together, free to try—and fail—in a safe environment.

There are four universal capabilities that must be mastered to become a strong, successful businessperson in any industry, economy, culture, or scenario:

1. Work in diverse teams to get things done that can't be done alone
2. Inspire, lead, and manage diverse teams
3. Communicate ideas clearly and concisely
4. Make smart decisions based on business sense

At Hult, our programs are designed so that whatever topic you're studying, you'll be practicing these four attributes.

We exist to inspire and challenge our community to make an impact that matters. From our foundation by one of Europe's most successful entrepreneurs, Bertil Hult, in 2003 to becoming one of the world's leading business schools over two decades—we're constantly optimizing our learning-by-doing methodology and developing a truly unique student experience.

Join the 30,000+ alumni who forged their outstanding international careers with Hult's challenge-based learning approach.

The World Is Your Campus

Hult San Francisco

Hult Boston

Hult London

Hult New York

Hult Dubai

Choose one of these home campuses for your core program.

Travel or “rotate” to these rotation centers for your electives.*

Specialist City Seminar Options

Want more travel options and networking opportunities? Our City Seminars offer specialist courses all over the world in subjects tailored to location. So you could study *Business & Globalization* in Singapore, *Entertainment Industry* in Los Angeles, or *Supply Chain Analytics* in Mexico City. See pg 25 for the full list of sample City Seminar locations and courses.

Take a Campus Tour

*Rotation locations subject to change. US elective rotation subject to US citizenship or visa regulations.

Meet Our Campuses

They're the members of the Hult team that will define your student experience like no other. They all have their own personality, style, and unique set of attributes to bring to your career journey. The good news is: you don't have to settle on one. You can get to know many of our locations during your Hult program with Global Campus Rotation.

Hult Boston

📍 1 Education Street, Cambridge, MA 02141, USA

FAMOUS FOR: Being the most prestigious academic city in the US, international prowess in healthcare, emerging startup scene, the Red Sox.

Hult San Francisco

📍 1355 Sansome Street, San Francisco, CA 94111, USA

FAMOUS FOR: Entrepreneurial spirit, epoch-defining brands, tech innovation, and open-minded creativity.

Hult London

📍 37-38 John Street, London, WC1N 2AT, UK

FAMOUS FOR: Having more headquarters of international companies than any other European city, the biggest startup cluster on the continent, and a long-standing reputation as a global trendsetter.

Hult New York

📍 Manhattan

FAMOUS FOR: Everything—the most iconic city in the US, with global influence on commerce, finance, and media.

Hult Dubai

📍 Dubai Internet City, PO Box 502988, UAE

FAMOUS FOR: Having one of the world's fastest-growing economies, a highly international and driven workforce, strategic geographical location bridging East and West.

“The program's global perspective and diverse cohort opened my mind to different backgrounds and cultural differences, enabling me to approach challenges with an open mindset. This not only broadened my network, but also gave me a powerful skillset that helped me secure a valuable internship opportunity.”

Charlyne Santos, Philippines, Class of 2024

Degrees Designed to Challenge

Accredited by the world’s three most prestigious independent bodies—AMBA, AACSB, and EQUIS—our highly practical MBA curriculum is centered on real-world business challenges. Throughout your program, you’ll take the knowledge and skills you learn in class and continually test them, and yourself, through practical application.

“The program has enriched my business acumen, strengthening my marketing and business development skills. These invaluable experiences have played a pivotal role in shaping me into a well-rounded business professional.”

Ashwini Torvi, India, Class of 2023

Which MBA Is Best for You?

Hult offers three full-time, one-year MBA programs. They all follow our highly practical challenge-based approach to learning and focus on working in diverse teams, but each brings something unique to your knowledge base and skillset. Choose the program that is best suited to your career goals post-graduation.

Global One-Year MBA

Our flagship MBA program is ideally suited to candidates seeking a career change who want to keep their options open. With four home campuses to choose from, five rotation options, 22 specializations, and a range of over 150 electives—this program provides a wide choice of both location and specialist disciplines to explore.

Reasons to choose:

- Explore a wide variety of career paths
- Experience multiple locations
- Choice of 22 specializations

Global One-Year MBA With Analytics

This pathway enables students to gain the essential business and leadership skills of the MBA while earning a highly in-demand analytics specialization. While the home campus options remain the same, students must focus their elective choices in the field of analytics and take an additional elective. This degree qualifies as a STEM degree which means graduates can also be eligible for extended work authorization in the US (OPT) post-graduation, providing they complete their entire degree at a US campus and go on to work in an analytics-related role.

Reasons to choose:

- Pursue a career in analytics: business analyst, marketing analyst, analytics consultant etc
- Increase employability worldwide, particularly in US and UK
- Gain an international perspective of business and leadership

Join a cohort of professionals from across the globe

Boston-NYC Finance MBA

Tailor made for candidates wanting to pursue a career in the highly competitive field of finance, including investment banking and venture capital. Based in the management and finance capitals of the US—Boston and New York—the program also provides opportunities to travel to other financial hubs in the US and Europe. Led by industry experts and with selective admissions criterion, this program is ideal for those looking to make their mark in the elite world of financial leadership.

Reasons to choose:

- Focused on forging a career in finance
- Study in Boston and New York with other travel opportunities
- Designed and led by industry experts

Tailor Your Program With Electives & Specializations

When you've completed your core courses, you'll take four elective courses in the summer semester to complete your degree. New electives are added every year to keep options up-to-date and relevant, and over 150 electives are available to study every summer.

Laser-focused on your career goals?

Choose from 22 specializations to target your dream job and maximize your employability in that field. See page 26 for more on specializations.

Have broad interests and wide career goals? Increase your knowledge and skills across subjects by choosing any four electives from across the full range of 150 courses. See page 24 for more on electives.

Taking the STEM Business Analytics Track? Focus on the specific skills you need for the job you want by taking the One-Year MBA With Business Analytics. See page 25 for more on STEM electives.

Ready to lead? Develop your leadership skills throughout your MBA journey with dedicated coaching from Hult faculty and innovative skills tools to bring your managerial and teamwork abilities to the next level.

“My leadership skills have significantly developed during Hult’s MBA program. Through working in international teams and doing presentations using captivating methods, I have grown and can apply this knowledge in my future career as an aspiring hotel entrepreneur.”

Calvin Meiser, Germany, Class of 2023

Work With Real-World Businesses on Real-World Challenges

Business Challenges are project-based, faculty-led courses that occur during or at the end of each core module. These challenges combine skills, topics, and knowledge from previous courses to apply toward solving or developing real-world business strategies.

At least one of these challenges involves working alongside a real-world corporate client, which gives students the opportunity to gain practical experience working with successful companies, grow their network, and add weight to their resume.

Previous Business Challenge examples include:

Client: Mercedes Benz

Developing solutions to increase the electric vehicle share in key global markets.

Client: Verizon Wireless

Establishing new market segments and key enablers of technological disruption.

Client: Kinder

Developing an integrated marketing campaign across Above the Line and Below the Line touchpoints.

Client: Grupo Bimbo

Integrating technological strategies, including ecommerce and autonomous vehicles, into food industry strategy while enhancing existing business models and creating new customer access innovations.

Entrepreneurial Challenge

Creating a new business concept at the edge of growth trends, while developing and validating ideas through deep insights, and building a go-to-market plan that is executable and financeable.

STEM Challenge

Identify a future business opportunity in the next 5-10 years, perform a professional exploration of the opportunity, and develop a strategic plan to integrate and execute the opportunity.

Nothing beats that feeling of achievement when your team wins the challenge

Sample Business Challenges

BUSINESS CHALLENGE 1*

New Market Strategy Challenge

Your first business challenge will immerse you in the many decisions a company needs to consider when assessing a new venture, from market analysis and competitive differentiation to sales strategies and tactics, production, logistics, and financial management. The cornerstone of the challenge will be a competitive, team-based business simulation. As you compete to win in your industry, you'll improve your ability to develop and implement a strategy for success in a dynamic team environment.

BUSINESS CHALLENGE 3*

Global Communications Challenge

Explore the intricacies of global communications and global crises in today's interconnected world through an applied challenge. Dive deep into the challenges and opportunities of cross-cultural communication, data and operational strategies, crisis management, and sustainability on a global scale. Gain practical skills and strategic insights to navigate the complexities of international markets and emerge as a savvy global communicator.

Sophia Liu dives into the data with her team at Hult Boston

*Course titles and challenges subject to change.

Integrated Support for Work Authorization Post-Graduation

As an international school, we are experts in supporting international students with their visas and work authorization after they graduate. Every campus has a local visa and compliance team dedicated to helping you understand and obtain the work authorization you're eligible for.

It's important that you connect with your visa team early and remain in contact with them throughout your program. The more they know about your goals and expectations after graduation, the better they can support you.

Working in the United States after graduation

Once international students have graduated from a US campus, they can apply for US work authorization known as "Optional Practical Training" or "OPT."

- Global One-Year MBA graduates can be eligible for **one year of OPT**.
- Global-One Year MBA With Analytics graduates can be eligible for up to **three years of OPT**.

You should be aware that your eligibility for OPT is dependent on you completing your core program at a US campus and securing work within a field directly related to your degree. Your local visa team can help you navigate the complexities of the US visa system and understand your obligations while studying.

Working in the UK after graduation

All international students who have completed their degree in the UK can apply to the **Graduate Immigration Route**. This allows unsponsored graduates to work or look for work in the UK for up to **two years** after they graduate.

Your local visa team will support you in applying for the Graduate Route.

Working in the UAE after graduation

International graduates who secure a full-time job within the UAE are eligible for an **employment visa**. Connect with your local visa team as soon as possible and start searching early for an employer who could sponsor you after graduation.

If you provide evidence of having entrepreneurial experience, you may be eligible to apply for a Business Visa, which is a long-term visa.

Visa Support

Hit Your Goals With Active Career Coaching

Career support at Hult is as practical and proactive as our programs—and is integrated directly into the student experience.

Experienced insider coaches

With years of on-the-ground experience as recruiters and headhunters, our coaches have insider expertise and extensive knowledge of the global job market.

Step-by-step guidance

Get personalized, job-focused advice that targets your ideal location, function, and industry and provides you with the actions you need to take to get there.

Active employer networking

From guest spots to business challenge clients to career fairs to HQ visits, employer networking and corporate exposure is a regular part of campus life.

Practical skills & tools

Join workshops and 1-2-1 sessions on: resume writing, online profiles, personal branding, interview skills, mock assessment centers, and more.

Integrated visa support

Understand your post-graduation work options and get end-to-end support with your visa applications, from securing your student visa to completion of your OPT.

Mandeep Sahota

Hult Career Advisor
Former Recruiter, HR, & Talent Acquisition Strategist
10+ Years' Recruitment Experience

HULT What brought you to Hult?

MANDEEP

As a recruiter, I would come across Hult students applying for roles in the companies I was working for and they stood out to me.

H What makes you well-placed to advise students?

M I have looked at thousands of resumes during my career as well as having been involved in all aspects of the hiring cycle, from scoping out job descriptions to understanding business needs and what hiring managers are looking for, as well as what goes into the decision-making process.

H How do you work with students?

M We get to know students through 1-2-1 sessions where we identify what interests them, what their strengths are, and how they can leverage these things to achieve their goals. We have open channels of communication through workshops, drop-ins, social media, and email and encourage engagement as much as possible.

Choose From 150+ Elective Courses

Have broad interests and wide career goals? Increase your knowledge and skills across subjects by choosing any four elective courses from across the full range of 150+ courses on offer every summer.

When you've completed your core courses, you'll take four elective courses in the summer semester to complete your degree. This is also when you can travel, or "rotate" to different campuses. New electives are added every year to keep options up-to-date and relevant, and over 150 courses are available to study every summer. With so many options, you can explore a wide variety of subjects and explore possible career paths.

There's so much more to learning at Hult than what happens in the classroom

Choose from elective courses in:

Marketing

Finance

Business Analytics

Management

Operations & Project Management

Innovation

Entrepreneurship

Visit our website for more on electives, including sample courses

Kisuc Kim maps out his options on the walls of a meeting room on the Dubai campus

Lifelong Learning

Hundreds of alumni return to Hult every year to skill up with a fresh elective through Hult's Lifelong Learning. Pick up something you didn't have time for during your program or update your expertise in a new field.

Global Campus Rotation

During your summer semester, you can choose to travel to any two campuses to take your elective courses.¹ Gain on-the-ground experience in multiple locations and expand your global network.

STEM MBA Track Electives

Students on the STEM MBA Track will need to take five electives, all from the Business Analytics category. They can also choose to replace one elective with a STEM Analytics internship.

City Seminars

Additional city seminar options available each summer.²

Sample seminars:

- Business of Fashion in New York
- Sneaker Business & Culture in Boston
- Angel Investing & Venture Capital in San Francisco
- Emerging Tech in Silicon Valley
- Business History in London
- FinTech in London
- Innovation in Dubai
- Business & Globalization in Singapore

Summer Internships

Internships are a great way to gain experience and build your network off campus. You can choose to replace one of your electives with a for-credit internship.

¹Electives and courses are subject to change. Please note that not all elective courses are available at all campuses. US elective rotation subject to US citizenship or visa regulations. ²Subject to availability.

Target Your Goals With 22 Specializations

Laser focused on your career goals? Target your dream job and maximize your employability in that field with one of the 22 specializations on offer.

During your summer semester, you can choose to concentrate your elective choices within a particular area and graduate with a specialization. This is where you can really zone in on the specific skills you need for the job you want. You'll need to take three elective courses within one area to graduate with a specialization in that field.

Get practical about your career goals; choose a specialization that's tailor made for the job you want

Marketing

Digital Marketing & Analytics
Product & Brand Management
Sales Strategy

Finance

Transactional Finance & Investments
Financial Technology (Fintech)

Grow your skillset in a specific area and maximize your employability

Operations & Project Management

Applied Project Management
Supply Chain & Logistics

Innovation

Future Thinking & Emerging Technology
Digital Transformation

Social Entrepreneurship
Developing & Emerging Markets

Business Analytics

Data Science
Analytics & Programming

Management

Consulting & Strategy Skills
Talent Management

* – Not all specializations or elective courses will be available at every campus
– Specializations or elective courses are subject to change
– A specialization under STEM designated topics does not make a degree eligible for STEM or STEM US OPT extension eligibility if completing full degree in the US. Students on the Global One-Year MBA With Analytics program complete the Business Analytics specialization above plus additional core and elective requirements which fulfill credit requirements towards a STEM degree and US OPT extension eligibility (if applicable).

Visit our website for more on specializations, including sample courses

Passionate Professors From the Real Business World

More than just professors, our practitioner faculty are supportive mentors that have your professional goals in mind. Known as much for their academic credentials as for their decades of experience as executives, consultants, and entrepreneurs, our faculty members know what it takes to thrive in the demanding world of international business.

Ali Fenwick, PhD

Dutch/British
Organizational Behavior & Innovation Professor

With 18 years of experience in management consulting in telecommunications, FMCG, and pharma, Dr. Fenwick is a professor of industrial-

organizational psychology who teaches across several key topics, including organizational behavior, leading for innovation, and management psychology. Ali is the founder and CEO of LEAD TCM&L™—a global behavioral science advisory firm developing psychological interventions for business, education, government, and NGOs. He is also a Harvard Business Review contributor, TEDx and keynote speaker, media behavioral expert, conference chair, author, and strategic advisor.

Amanda Nimon-Peters, PhD

Australian
Data Science & Leadership Professor

Behavioral scientist Amanda started university aged 16 and went on to earn a master's and PhD from the University of Cambridge, during which time she spent nine months of her research work living in a tent in Antarctica. Since then, her extensive corporate career includes 10 years in sales and marketing research at P&G as well as launching and running her own consultancy, whose clients included LG, Cisco, HSBC, and Shell. Her current research includes behavioral change techniques for leadership development as well as the effects of leaders' ethical choices. Her latest book, *Working with Influence: Nine Principles of Persuasion to Accelerate Your Career* (Bloomsbury, 2022) is a prime example of her highly practical and applicable insights into leadership.

Viktoria Dalko, PhD

Hungarian
Finance Professor

Before establishing herself as a leading academic at Harvard and CUNY, Dr. Dalko worked as an advisor to the president of the National Bank of Hungary and was chief of staff for the Budget, Tax, and Finance Committee of the Hungarian Parliament. Her latest book, *Regulating Competition in Stock Markets*, was co-edited and co-authored with Nobel Laureate Professor Lawrence Klein and other world-class researchers.

Ted Ladd, PhD

American
Strategy & Innovation Professor

Fulbright Scholar Dr. Ladd has over 20 years of experience in high-tech, venture capital-backed startups—including being the director of a smartwatch company that was sold to Google to form the foundation of its Android Wear operating system. He has taught at Harvard University and Copenhagen Business School. He holds a PhD in Entrepreneurship from Weatherhead School of Management at Case Western Reserve University and an MBA from Wharton School of Business. In 2014 he won Best Paper in Social Entrepreneurship at the Academy of Management annual conference, and in 2016, Most Relevant Paper to US Practitioners at the Small Business and Entrepreneurship annual conference.

Omar Romero-Hernandez, PhD

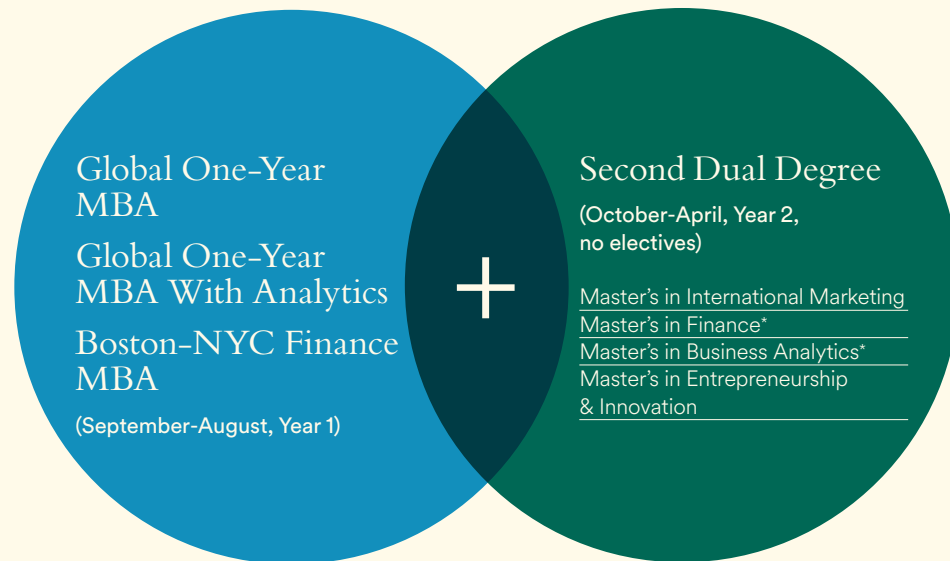

Mexican
Data Analytics & Operations Professor

A Fulbright Scholar, Omar uses his mastery of numbers to transform the lives of disadvantaged communities via renewable energy in his native Mexico. He's led several internationally awarded projects with sponsors including the UN, Mexico's Ministry of Environment, and the stock exchange. In 2010, he was appointed leader of a national task force on economic growth and low carbon emissions, which delivers recommendations to the President of Mexico. He was one of the recipients of the Franz Edelman Award, the world's most prestigious award for operations research and management science.

Double Your Value With a Dual Degree

Why get one master's degree when you can get two? Double your impact with more skills, networking, experience, and qualifications with a Dual Degree from Hult. Earn two triple-accredited master's degrees in just 18 months and graduate with a winning combination of skills to set you apart from the competition.

Dual Degree options and timings

Program fee for the second master's as part of the Dual Degree: **44,000 USD**, in addition to first master's program fee**

*Students who graduate from Hult in the US with **Business Analytics or Finance** as part of their Dual Degree are eligible for three years' postgraduation work authorization in the US (OPT) in a STEM-related field. Other Dual Degrees may qualify you for a one-year OPT in the US and all can be eligible for a two-year Graduate Immigration Route in the UK.

**This is indicative program pricing, other fees will apply. Please visit our website for more detailed costs.

Gain a network that will
last a lifetime

Fees, Scholarships & Financing Options

Your education is undoubtedly one of the most important investments you will ever make. Throughout the application process, we will work closely with you to help you understand the options available to you to finance your degree.

You'll receive personal support throughout the application process

Partial scholarships

Partial scholarships are designed to help us find the best global talent and maximize diversity. Our scholarships cover a wide range of backgrounds, industries, sectors, and nationalities.

- Social Impact Scholarship
- Global Professional Scholarship
- Entrepreneurial Impact Scholarship
- Senior Leader Scholarship
- Women in Business Scholarship

Need-based financial aid

If you have a demonstrated financial need, Hult may be able to help with limited need-based financial aid that is awarded on a case-by-case basis. The financial aid committee looks at the situation of each accepted student and, depending on each candidate's personal circumstances, decides if financial aid will be awarded and at what level.

Loans & government support

Financial institutions in many countries offer education financing specifically to local citizens. These loans are typically repayable after completion of the course, although terms vary widely. Depending on where you are from, you may be eligible for loan and grant opportunities offered by your government. We work with candidates to help them identify suitable financial institutions and government programs.

Payment plans

We have a variety of payment options to fit your situation, including Early Payment discount. If you choose the Early Payment plan, you are eligible for a 2%* discount on your tuition (*net fees after scholarship and financial aid are deducted), providing you meet the terms.

Please reach out to our enrollment team for more information at hult.edu/contact

Program fees

Full-time, one-year MBA

87,900 USD* (Boston)

87,900 USD* (San Francisco)

65,900 GBP* (London)

299,000 AED* (Dubai)

*This is indicative program pricing, other fees will apply. Please visit our website for more detailed costs.

We'll help you find the right option for financing your degree

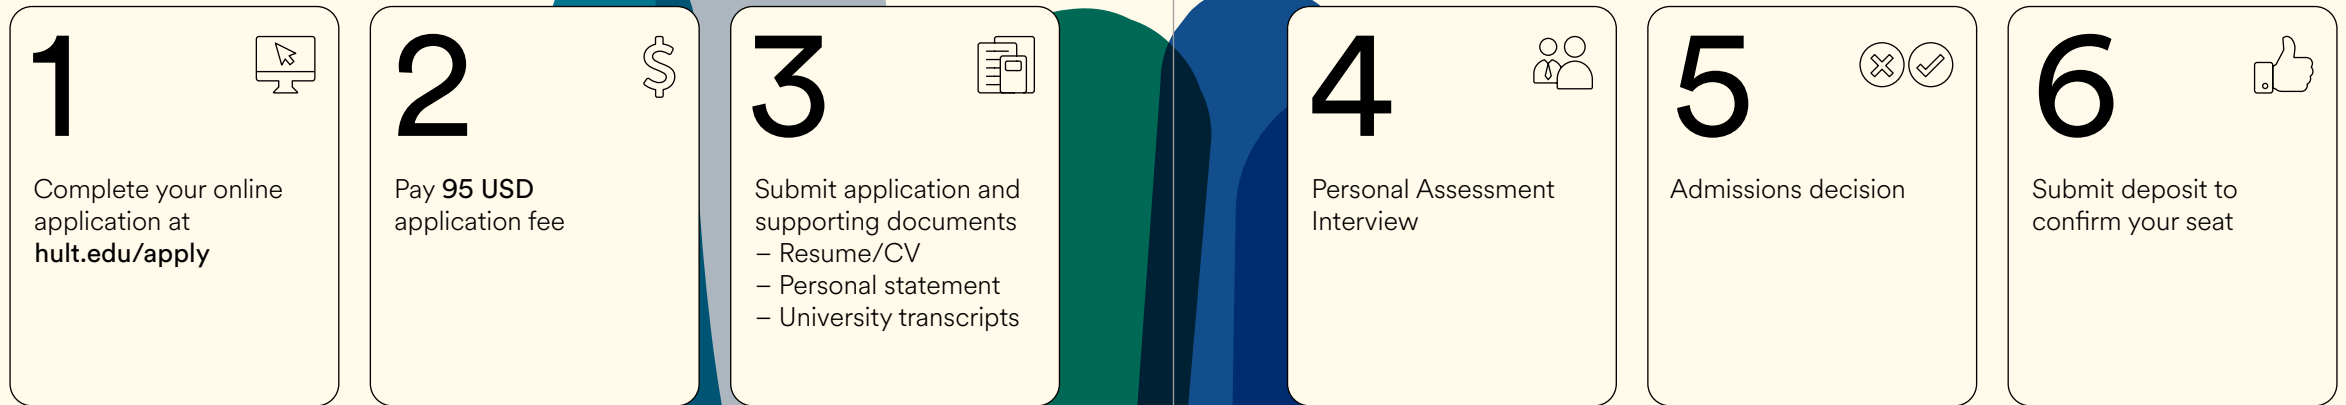

Ready to Apply?

We are looking for dynamic, international, and open-minded individuals who have the ambition to grow and succeed in the world. Sound like you? Here's how you can join Hult:

We have enrollment advisors in every region so you can talk directly to one of our team, wherever you are in the world

Entry requirements

- Bachelor's degree or equivalent
- Three or more years' work experience
- Proficiency in English (i.e. TOEFL/IELTS)*

*English test waivers may apply for native English speakers or if your bachelor's was completed in an English-speaking country. Your English test results can come later in the process if they're not available immediately.

Your Personal Assessment Interview

This interview is the centerpiece of the Hult admissions process. We are a future-focused business school and this is the best opportunity you have to share your plans and dreams with us. This is the time for us to really get to know each other in person, over the phone, or via video call.
