OSSTELL CLASSIC
implantmed CLASSIC

Focus
on the
essentials

Implantmed Classic and Osstell Classic impresses users with its intuitive ease of use. You can fully and completely concentrate on the most important aspect: your patients.

Powerful motor
With a motor torque of 5,5 Ncm and a motor speed range of 300 to 40,000 rpm, Implantmed is an impressively powerful instrument.

Fatigue-free operation
In combination the short motor and the ergonomically shaped contra-angle handpiece are perfectly balanced. You can work for long periods without hand fatigue or cramping.

Easy to use
Its new display with auto backlight makes Implantmed easy and uncomplicated to use.

Stress-free healing
The automatic thread cutter function supports you when inserting implants in hard bone and prevents compression of the bone.

Implant stability without compromise.
Providing a straightforward solution, Osstell Classic uses evidence-based RFA technology to provide objective, non-invasive stability assessments.

Implant Stability Quotient
Understanding the ISQ scale helps in making informed decisions about implant stability and treatment protocols.
