

Augment your hearing Xperience

Hearing isn't always easy – a big group of people talking at the same time, too much background noise. The new Pure C&G AX hearing aids unravel this confusing array of sounds so you can focus with ease on what you want to hear. Also available in a telecoil (T) version for those who want to connect directly to audio loop systems or as a CROS version.

Pure C&G AX stand up to any acoustic challenge to let you Be Brilliant – all day, every day.

About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.

Augment your hearing experience

Pure C&G AX offer an unprecedented hearing experience that goes beyond previous natural-sounding solutions. This is augmented hearing that lets you enjoy crystal-clear speech with an amazing immersive soundscape in any situation.

These high-tech devices use our ground-breaking Augmented Xperience platform. It applies the same principle as in 3D movies where key images appear directly in front of you while the background remains further away. This is possible because we have, for the first time, two separate processors: one for sounds in focus, like your conversation partner's voice, the other for surroundings.

Prescription audio that performs

Pure C&G AX are packed with all the high-tech features you need, such as Bluetooth streaming for your phone calls and music from both Android and iOS devices as well as advanced tinnitus therapies to make your life with tinnitus more comfortable.

These sleek modern all-rounders are also rechargeable, giving you up to 23 hours of use on a single charge with 5 hours of streaming. They come with a compact charger with the option to upgrade to a portable or Dry&Clean charger.

Immerse yourself in crystal-clear speech

Our revolutionary processing technology offers you the best speech understanding, including a natural-sounding own voice thanks to Own Voice Processing (OVP).

Advanced sensor technology recognizes if you are moving, and detects which hearing situation you are in automatically, to ensure that you always experience the best possible sound as you move through your day.

Both the standard and telecoil versions of Pure C&G AX are available in a range of colors to suit every taste.

Personal support, at your fingertips

The full Pure C&G AX range connects to the Signia app, which contains the Signia Assistant and TeleCare support. Using artificial intelligence, the Signia Assistant offers you immediate support whenever you need to adjust settings.

Signia TeleCare enables you to keep in touch with your hearing care professional, so you get extra support on the spot when you need it. The Signia app acts like a hearing professional in your pocket, so you can Be Brilliant in any situation.

Compatible with Android and iOS. The app is free of charge.
