

Our Learning Framework

The WE Schools Learning Framework is the educational foundation for every resource we provide, including lesson plans and campaigns. It is grounded in pedagogical theories of service-learning and 21st-century learning practices. As an educator, you can use the WE Learning Framework as a helpful reference tool to ensure that your curriculum expectations are met through student engagement with WE Schools programming. Look for our learning skills icons throughout the program to find the most relevant skills students will be developing.
