WellStat

The WELL Standard is the leading global framework for creating spaces that enhance human health and well-being.

The Works with WELL mark demonstrates how your products and services contribute to WELL strategies, helping create spaces that prioritize health and well-being.

Why market leaders choose Works with WELL

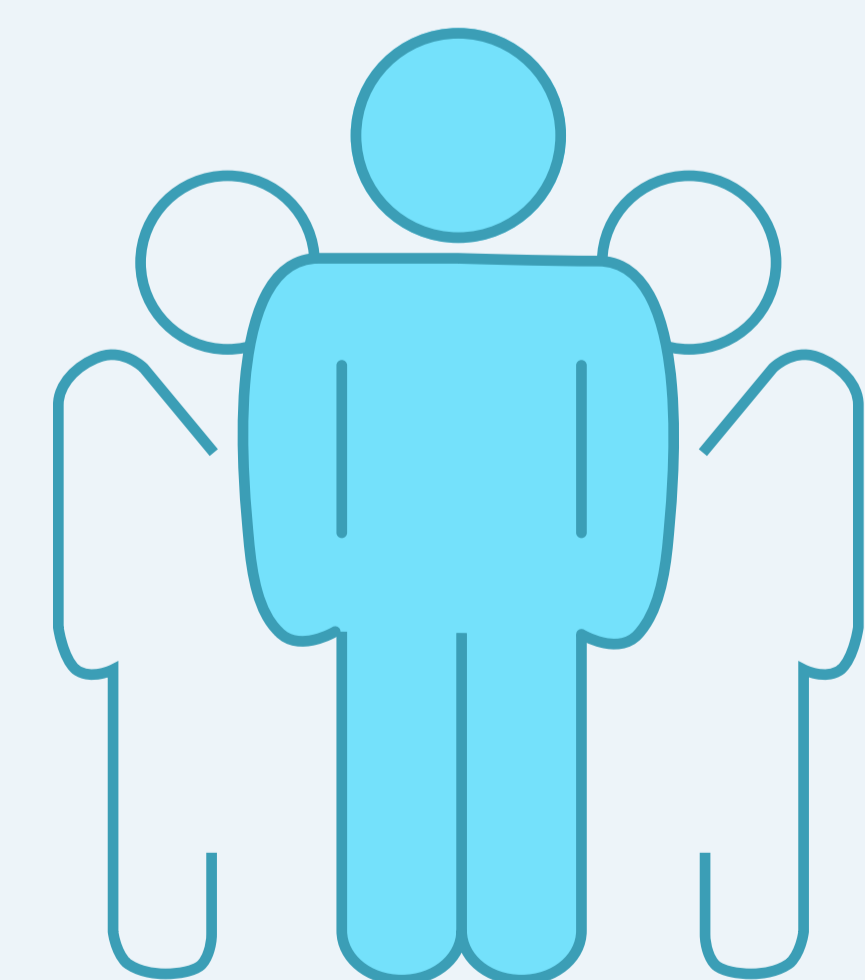

Brand leadership

Build customer trust by showcasing the Works with WELL mark on your marketing channels.

Instant market visibility

Be featured in the WELL directory, where users are searching for products that can contribute to WELL points.

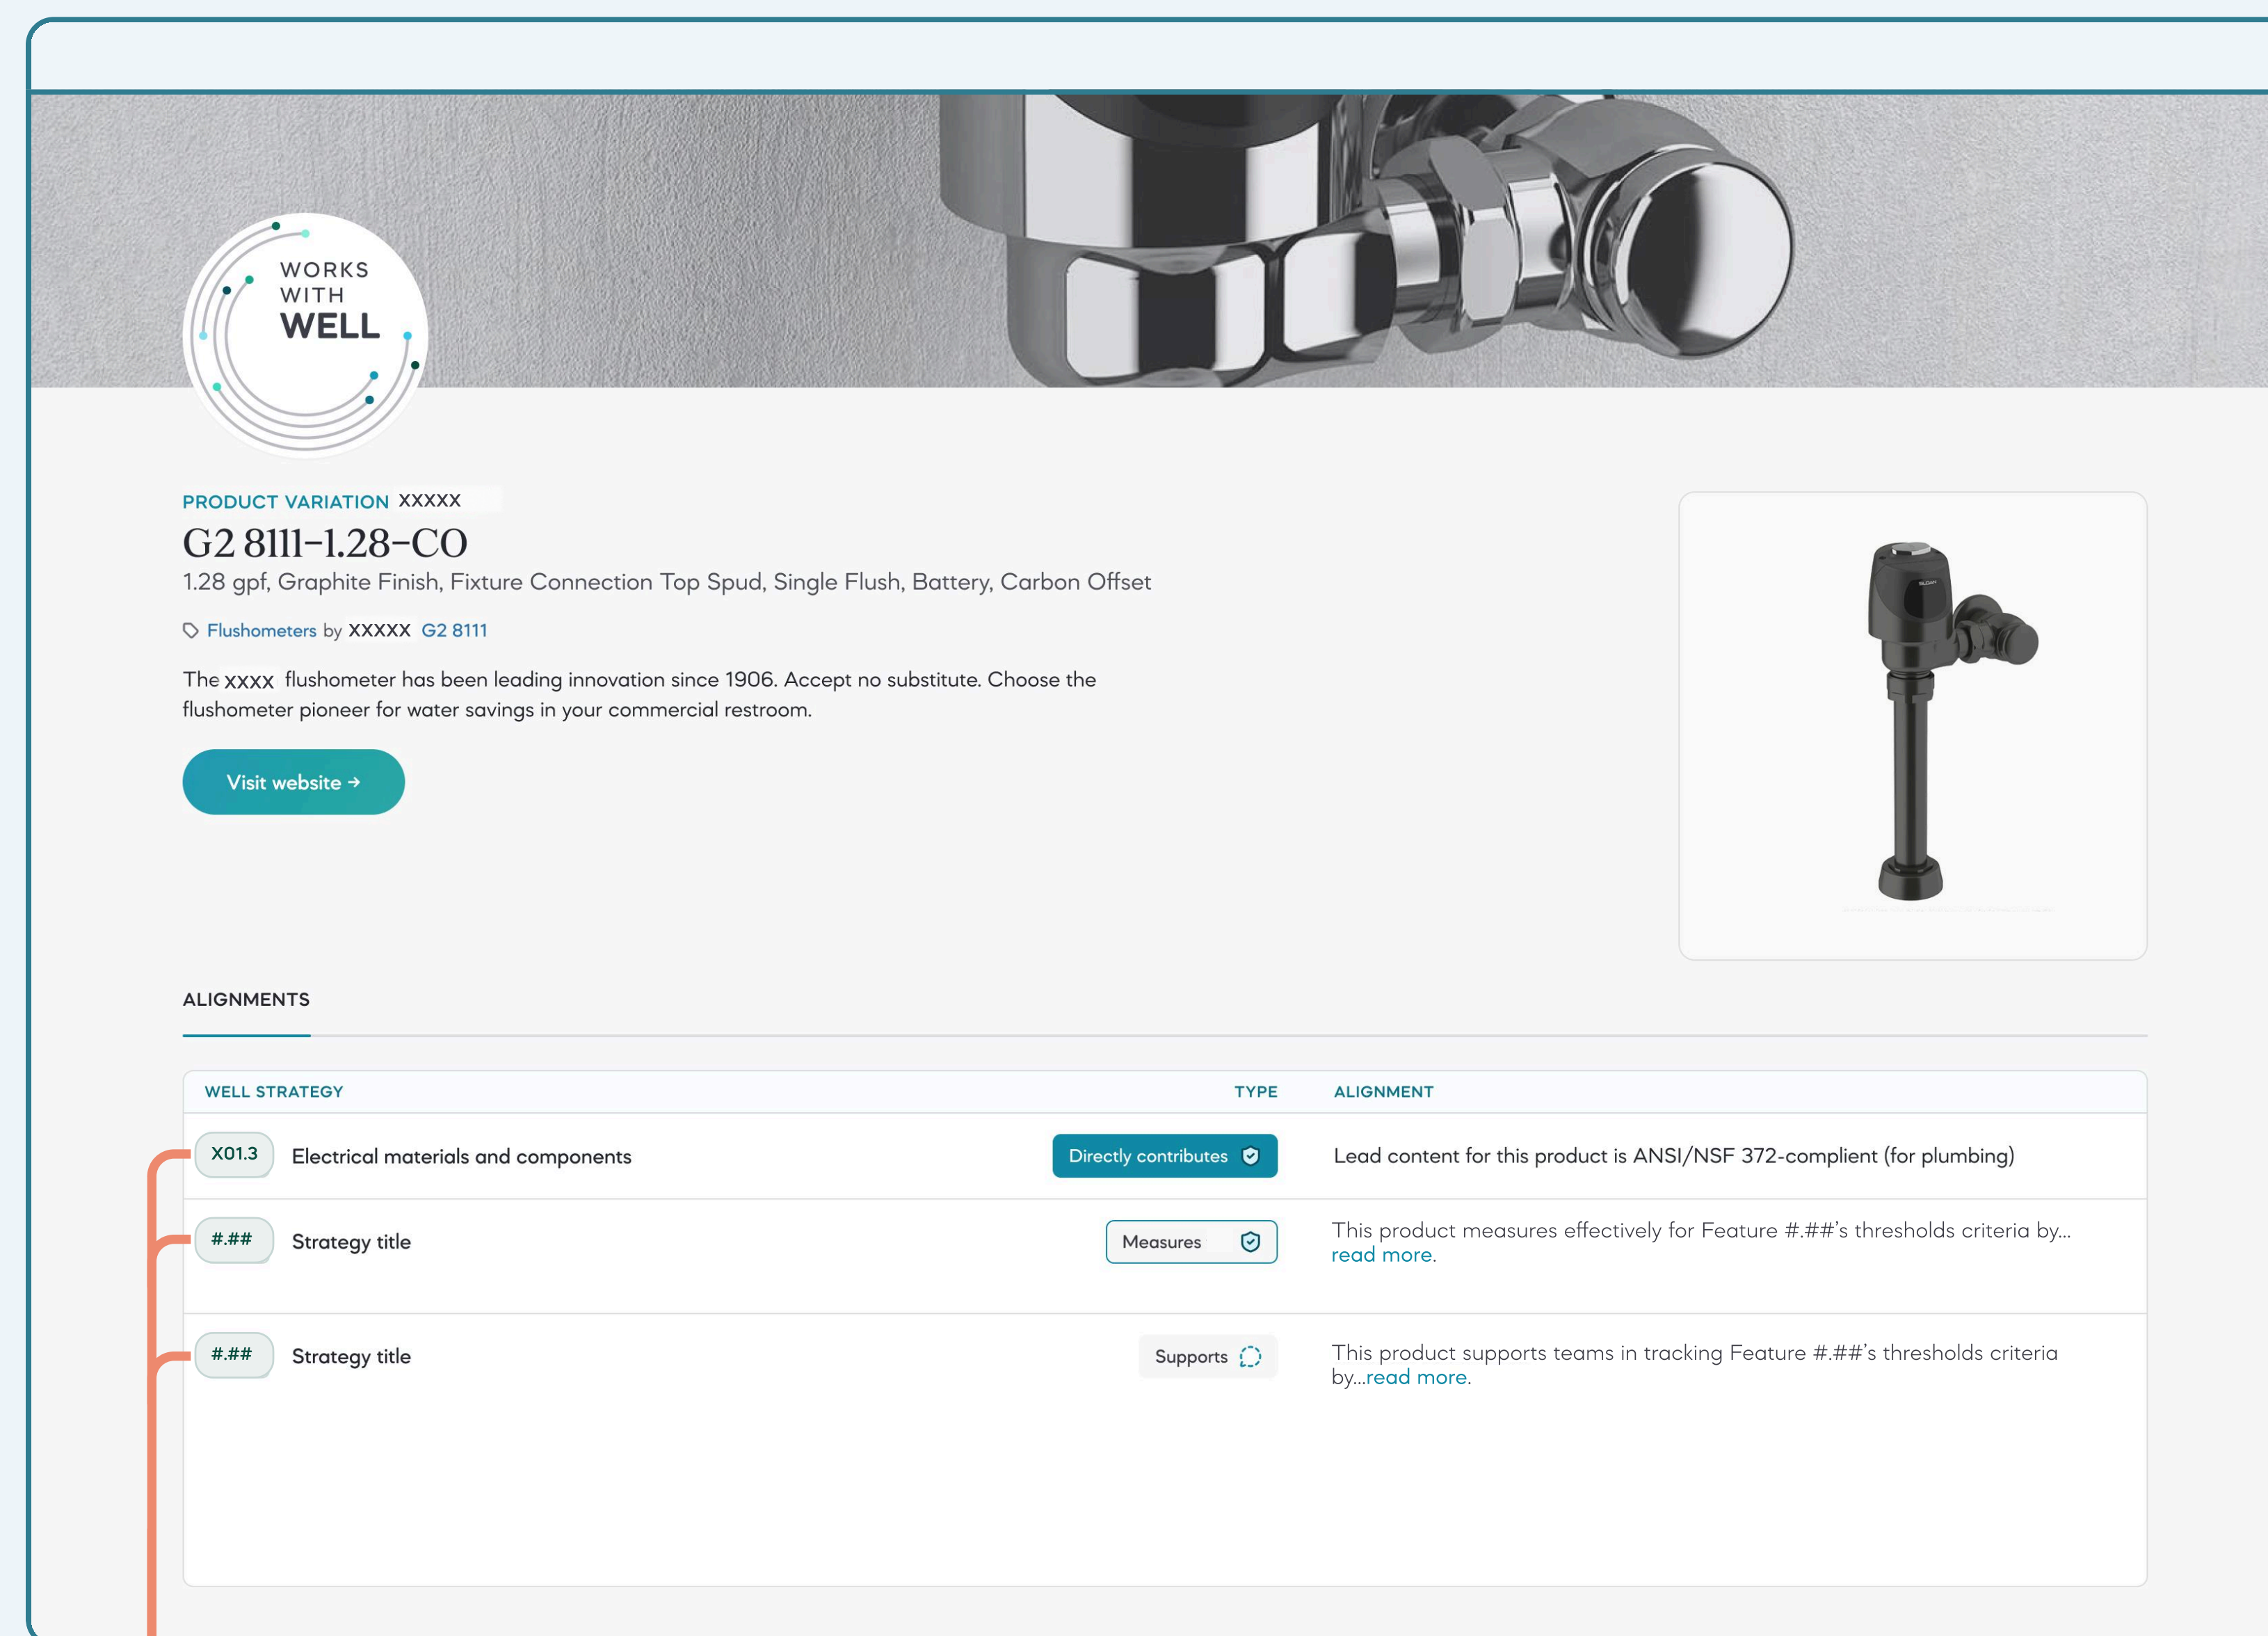

Health pays back

Capitalize on growing demand for solutions that drive health and financial performance.

Three pathways to align with WELL

Identify the alignment option that best represents your offerings.

Directly Contributes

Your solution can directly contribute to a WELL strategy.

Measures

Your solution can measure for a threshold listed in a WELL strategy.

Supports

Your solution can support the implementation of a WELL strategy.
