

# THE WELL EQUITY RATING

Invest in your people. Empower your business. Prioritize health.

The WELL Equity Rating is a set of evidence-based strategies from the WELL Standard for transforming how places are designed, operated and managed to create environments where everyone can thrive.

## Key benefits

- Implement strategies that will have the most impact on their workforce.
- Bolster employee recruitment, retention and productivity.
- Design environments where everyone can thrive and feel welcome.
- Enhance annual reporting and performance.

## Core areas of impact

**User Experience and Feedback:** Understand employee needs to inform policy and design interventions.

**Responsible Hiring and Labor Practices:** Commit to responsible supply chains and hiring practices that engender a holistic culture of respect.

**Inclusive Design:** Create accessible places that welcome people of all backgrounds and physical abilities.

**Health Benefits and Services:** Extend access to healthcare, social services and other benefits that help your people thrive.

**Supportive Programs and Spaces:** Encourage your people to form healthy habits by designing inclusive, accessible environments that encourage exercise and nourishment, provide lactation support and offer restorative opportunities.

**Community Engagement:** Support your community by volunteering time and resources.
