

Reduce Respiratory Particle Exposure

WELL Health-Safety Rating™
Q4 2022 addenda

HOW TO USE THIS DOCUMENT:

This document is intended to serve as a guide on how to create a project **narrative to implement strategies to reduce human contact with respiratory particles.**

This document is meant to demonstrate an acceptable degree of detail for a documentation submission. The Feature cannot be demonstrated solely through a confirmation that the requirements have been or will be implemented. The level of detail is up to the discretion of the project team, but the documents must include specific details demonstrating that the actual policies/protocols have been enacted in the project boundary.

This document and similar tools are intended to assist projects in their pursuit of the WELL Health-Safety Rating but use of this document and/or similar tools are in no way a guarantee of achievement of any rating, certification or other designation, and no representation or warranty is made regarding the likelihood of achieving any rating or designation, and IWII shall have no liability resulting from the use or content of this document or similar tools or resources or from any action taken or inaction occurring in reliance on this document or similar tools or resources.

Note: The below document is based on the Q4 2022 addenda of the WELL Health-Safety Rating™. Project teams are required to implement the feature requirements from the addenda version assigned to their project or any more recent addenda version.

EXAMPLE DOCUMENT

Example for Sections a, b, c and d
