

# Put people first today to prepare for tomorrow

## WITH THE HEALTH-SAFETY RATING

If the last few years have taught us anything, how we care for our spaces and our people matters. With over 60 evidence-based strategies from the WELL Standard, the WELL Health-Safety Rating is a roadmap for organizations to anticipate what's around the corner and put necessary plans and protocols in place for resilience and response.

### A healthy environment is non-negotiable

Put health and safety at the center of your business strategy to drive financial returns and maximize ESG performance.

Strengthen real estate returns

Bolster productivity and engagement

Enhance annual reporting

Attract and retain top talent

### Build confidence in the strategies you implement

The WELL Health-Safety Rating is a proven roadmap for organizations that are committed to:

- Monitoring and optimizing air and water quality
- Communicating health and safety efforts with clarity
- Providing access to integral health benefits and services
- Demonstrating preparedness with emergency planning
- Ensuring effective cleaning and sanitization practices
