

Rubens Configurator Setup & Creation

INTRODUCTION: HOW TO GET STARTED

Learn more about how you can get started with setting up Rubens Product Configurators yourself. Our documentation makes all necessary information available for configurator content creators, shares our scripting knowledge, offers a training course and examples to get started. Benefit from our many years of experience - our configurator expert team is available for support.

01

WHICH QUALIFICATION IS NEEDED TO SETUP PRODUCT CONFIGURATORS YOURSELF?

We have summarized a description of the profile for you [here](#).

02

WORK THROUGH THE FOLLOWING AREAS:

a) [Scripting resources](#): Walk through the whole documentation which also contains a [Scripting Course](#) where you learn how to create and manage configurable products at scale.

b) [Material documentation](#): Learn how to define and set material attributes correctly

03

HOW TO EXPORT 3D MESHES & CONFIGURATOR SCRIPTS

Deep Dive on the ["Blender Addon section"](#) to learn how to export the Roomle Configurator Script format and external mesh files.

04

RUBENS ADMIN PLATFORM (DATA BACKEND)

All your product configurators and data is finally managed via the [Rubens Admin Platform](#).

Visit our documentation and learn how to:

- [setup a configurator component](#)
- [upload \(external\) geometry](#)
- [setup and manage materials](#)
- finally [setup a "configurator item"](#) for the integration into online channels

05

GET STARTED & SIGN-UP

Create your Rubens Admin Account and start setting up your first product configurator here:

[Sign-up with your e-mail address](#) and contact us that we can assign your user to your licensed account and catalog.

SUPPORT CHANNEL: You can contact our configurator production expert team via [Stack overflow](#) by using the tag "roomle".
