

CRO Announces Filing Date Change For Annual Returns

The Registrar of Companies has decided that all annual returns due to be filed by any Company now and up to 30th June 2020 will be deemed to have been filed on time if all elements of the annual return are completed and filed by that date. This will enable businesses and their financial advisers to focus on the more immediate financial challenges facing them at this time. The situation will be kept under review and the date of 30th of June may be extended depending on the situation as it develops.

If you are due to complete your annual return filing at any time up to 30th June your annual return will be deemed to have been filed on time if you capture the B1 form, upload your financial statements, pay the fee and submit it online and then deliver the signature page as normal to the CRO by that date. You may also complete the filing as normal using Revenue Online Services (ROS) signatures instead of a signature page.

Please continue to file as normal during this period if you are in a position to do so. Annual returns may not be processed within the usual timeframes, however, anything received will be queued and processed as soon as possible.
