Step 4 Select “Avantree CK210” on your phone.

![Image of Bluetooth search result]

Note: Once paired and connected, it will auto re-connect the next time.
**Multi-point: pairing 2 phones simultaneously**

**Step 1** Connect the first phone (instructions above) then turn off its Bluetooth function.  
**Step 2** Set the CK210 into pairing mode again.  
**Step 3** Turn on Bluetooth on the second phone and connect with the CK210.  
**Step 4** Reboot the CK210 by turning it off then on again. Turn on the Bluetooth on the first phone. Both phones will now be connected to the CK210.

---

**Clear pairing history**

You may need to reset the CK210 if it is not working as expected. When reset to its factory default settings, all the paired device information will be erased.

**Step 1** Set the CK210 to PAIRING MODE – press and hold the MFB for 3 seconds until the LED flashes **BLUE** and **RED** alternately.  
**Step 2** Double click the MFB – the **BLUE** and **RED** LEDs will turn on for 1 second to indicate a successful reset. Then it will automatically enter pairing mode.

---

**How to charge**

When the battery runs low, the **RED** LED will flash every 2 seconds. Recharge the CK210 by plugging it into a USB car charger (not supplied) or PC USB port using the supplied charging cable. It normally takes 1.5 hrs to fully charge the battery. The LED will indicate red when charging and turn off when charging is completed.  
Charging requirements: DC5.0V/ 500mA-1A.
Multi-point: pairing 2 phones simultaneously

Step 1
Connect the first phone (instructions above) then turn off its Bluetooth function.

Step 2
Set the CK210 into pairing mode again.

Step 3
Turn on Bluetooth on the second phone and connect with the CK210.

Step 4
Reboot the CK210 by turning it off then on again. Turn on the Bluetooth on the first phone.

Both phones will now be connected to the CK210.

Clear pairing history
You may need to reset the CK210 if it is not working as expected. When reset to its factory default settings, all the paired device information will be erased.

Step 1
Set the CK210 to PAIRING MODE – press and hold the MFB for 3 seconds until the LED flashes BLUE and RED alternately.

Step 2
Double click the MFB – the BLUE and RED LEDs will turn on for 1 second to indicate a successful reset. Then it will automatically enter pairing mode.

How to charge
When the battery runs low, the RED LED will flash every 2 seconds. Recharge the CK210 by plugging it into a USB car charger (not supplied) or PC USB port using the supplied charging cable. It normally takes 1.5 hrs to fully charge the battery. The LED will indicate red when charging and turn off when charging is completed.

Charging requirements: DC5.0V, 500mA

Product specifications

- BT Version: 4.0
- Support Profile: A2DP, AVRCP, HSP, HFP
- Operation Frequency Band: 2.4GHz ~ 2.48GHz unlicensed ISM band
- Operation Range: Class 2, Up to 30ft.
- Working Time: 8 hours
- Standby Time: 130 hours
- Charging Time: 1.5 hours
- Charger Voltage: DC5.0V, 500mA
