2. Basic Operation

- **Pairing and connecting (call & music)**
  - **Pairing**:
    - Step 1: Make sure the headset is connected to your phone.
    - Step 2: Press the MFB to answer incoming call or to make a call.
  - **Music**:
    - Step 1: Enter pairing mode.
    - Step 2: Turn on the Bluetooth on the second phone and set it to search for new devices.
    - Step 3: Select “Avantree Ego” to pair and connect.
    - Step 4: Turn on the Bluetooth on the first phone.
    - Step 5: Flash the LED Blue and Red alternately.
    - Step 6: The headset is now paired and ready to connect.

3. What's in the box?

   A. Bluetooth Handsfree Headset with Dock
   B. Micro USB Charging Cable
   C. Aux Audio Cable
   D. Spare Silicone Earbud Tip
   E. User Manual

4. Installation

   - **AUX**: Set stereo source to AUX
   - **Pairing**: Enter pairing mode
   - **Clear pairing history**: On the standby mode, hold V+ and V- together for 7 seconds. The LED flashes BLUE and RED together once and then will power off.

5. Pairing and connecting (call & music)

   - Step 1: Make sure the headset is connected to your phone.
   - Step 2: Press and hold the MFB for 4 seconds until LED blinks BLUE and RED alternately.
   - Step 3: Ensure the headset is in STANDBY mode.
   - Step 4: Press and hold MFB for 4 seconds until LED blinks BLUE and RED alternately.
   - Step 5: Set stereo source to AUX
   - Step 6: When the battery is low, the LED will flash red and an audible prompt can be heard every 15 seconds. Please charge the headset with the charging cable or an adapter or PC USB port. It normally takes about 2 hours to fully charge the battery. The LED will turn red when charging and will turn off when charging is complete.

6. Multipoint – Connect with two phones simultaneously

   - Step 1: Pair and connect headset with the first phone as above. Then turn off Bluetooth on the first phone.
   - Step 2: Turn off the headset - press and hold the MFB for 4 seconds.
   - Step 3: Turn on the Bluetooth of the second phone.
   - Step 4: Activate Bluetooth on the second phone and set it to search for new devices.
   - Step 5: Select “Avantree Ego” to pair and connect.
   - Step 6: Turn on the Bluetooth of the first phone.
   - Step 7: The headset is now paired and ready to connect.

7. Clear pairing history

   - Step 1: On the standby mode, hold V+ and V- together for 7 seconds. The LED flashes BLUE and RED together once and then will power off.

8. How to charge

   - Step 1: Place the headset on the charging dock.
   - Step 2: Charge the headset using the charging dock.
   - Step 3: The LED indicator will turn red when charging and will turn off when charging is complete.

9. Product Specification

   - **Bluetooth specification**: Bluetooth 4.0
   - **Operating range**: Class 2, up to 10 meters
   - **Supported profiles**: HSP, HFP and A2DP profile
   - **Integrated with echo cancellation**
   - **Build-in speaker and microphone**
   - **Operating time**
     - Talk time: 4 hours
     - Standby time: 6 hours
   - **Recharging time**: about 2 hours.
   - **Charger voltage/current**: DC5.0V 500mA
   - **Battery type**: Li-ion rechargeable 800mAh
   - **Weight**: 29g

Note:
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.

FCC ID: 24T8-BTHS-AH58

To maintain compliance with FCC’s RF Exposure guidelines, this equipment should be installed and operated with a minimum distance of 25cm from your body. Do not modify and use only the equipped antenna.
