Product Overview

Ear Fin Fitting

Specifications:

- BT Version: 5.0
- Profiles Supported: HSP, HFP, A2DP, AVRCP
- Operation Range: Up to 10 meters, Class II
- Charge Voltage: DC 5V / 0.5-2A
- Charging Time: About 1.5 hours
- Playtime: 9 hours with ANC on, 13 hours with ANC off
- Standby Time: Up to 160 hours
- Battery Capacity: 220mAh
- Noise Canceling: 28dB
- Frequency Range: 20Hz~20KHz
- Headphone Size: 27x15x430mm
- Net Weight: 38g
## Basic Operations

Pair and connect

1. Get NB17 into PAIRING MODE - From off, press and hold for 4S until LED flashes BLUE and RED alternately. (Fig.1)

(First-time use: it will automatically enter pairing mode once powered on)

2. Activate Bluetooth on your device, search and select “Avantree NB17” to connect. Once connected, LED will flash BLUE twice every 5s, you will hear a voice prompt “Connected”. (Fig.2-4)
To add another device

1. Connect the first device as above.
2. Set NB17 into PAIRING MODE again and repeat steps 1&2 above to connect the 2nd device. (Fig.5-7)

3. Turn on the Bluetooth of first device, it will automatically reconnect. Otherwise, please connect it on the phone manually. (Fig.8-9)

Note: This feature only works for two mobile devices, such as cellphones and tablets. We do not recommend using this feature with PCs or Bluetooth transmitters.
Reconnect

Normally, when turning headset on, it will automatically reconnect to the most recently paired device. Otherwise, please try to manually reconnect by clicking ► once. (Fig.10-11)

ANC and Hear Through Functions

Click ▶️ once to cycle between ANC and HearThrough modes (Fig.12)
Clear the headphone pairing history

Make sure NB17 is powered on. Press and hold + and — together for about 5S until RED and BLUE LED flash simultaneously for about 2S (looks pink). It will then automatically power off to indicate a successful reset. For next use, please manually turn it on and it will automatically enter pairing mode. (Fig.13-14)

Charging

When the LED flashes RED every 5S and you hear a voice prompt “Battery Low”, you should fully recharge the device for about 1.5 hours. The LED will remain RED while charging and turn off when charging is complete. You can plug it into a USB wall charger/car charger (DC 5V / 0.5-2A) or computer USB port that is powered on. (Fig.15-16)
Troubleshooting

Headphones do not pair with Bluetooth device
- Ensure NB17 is in pairing mode correctly - LED will flash BLUE and RED alternately.
- For Smart phone, tablet and PC
  • Turn the Bluetooth feature off and then on.
  • Delete your Avantree NB17 headphones from the Bluetooth list on your device. Try to pair it again.(Fig.17-18)

• Clear the headphones pairing history

• No sound with PC?
  - Set Avantree NB17 as the default device or output device on the PC. (Fig.19)
- When using NB17 to make voice calls through apps, please set NB17 Hands-Free as Microphone and Speakers device.(Fig.20)

(Fig.20)

- **ANC LED steady on even when the headphones are off**

- Pay attention that ANC function is controlled independently by button. ANC function will not turn off even if the earphones are powered off. When ANC function is on, white LED will stay white. You need to manually turn ANC off if you don’t want to use it, or the playtime will not last as long as described.
