3. Set up and operation

Step 1: Connect the power adapter to the converter.
Step 2: Connect the HDMI source (Blu-ray/DVD Player) to the HDMI Input Port on the converter with a HDMI cable.
Step 3: Connect the converter’s HDMI Output Port to TV with another HDMI cable.
Step 4: Connect the converter to your AV receiver/home sound system using the Optical cable or RCA cable
Step 5: Output mode (EDID)

2.0CH: If you’re connecting to 2.0 home audio system or Bluetooth transmitter, we suggest using the 2.0 CH mode.
5.1CH: If your home audio system and TV support 5.1 channels, we suggest using the 5.1CH mode.
ADV: If your home audio system, audio source and TV all support a more advanced audio format (e.g. 7.1 CH), you can use the ADV mode to get the best audio quality.
If you can’t get any sound in this mode, please switch to 5.1CH or 2.0 CH mode.
