

#slvcares

Ladies and Gentlemen,

The health of our employees, customers and partners has always been the key priority for us, and even more now with the current spread of the COVID-19 Corona virus.

We want to protect everybody in the best possible way and this is why we have already introduced corresponding measures. We are closely following the latest developments and will adapt accordingly in order to contribute to slowing-down of the Corona virus spread.

Nevertheless we would like to maintain the normal business operations in the best possible way.

All our employees are available via phone and/or email so that we do not expect any restrictions in the daily business. Our Training and Visitor Centre in Übach-Palenberg is closed and all appointments are switched to virtual conferences. This applies until further notice.

The entire SLV team wishes you all the best - stay healthy and let's keep up the good collaboration and the business in these exceptional circumstances.

Please do not hesitate to contact us, if you should have any questions.

Eric Lachambre
