

Path to Proactive Safety Management

No matter where you're starting from today, the path forward is simple. Paper-based reports and Excel spreadsheets that track incidents and lost time can be moved to digital programs that take advantage of mobile technologies to make observation tracking simpler and more accessible – essentially putting safety in everyone's pocket.

EXPECTED

Binders &
Spreadsheets

LAGGING INDICATORS

- Log incidents & lost time
- Dedicated safety personnel
- Daily meetings & site plans
- Data locked in paper reports
- Measurement by EMR, OSHA incident rates, etc.

EXCEEDS

Digital

LEADING INDICATORS

- Daily tracking of incidents & incident avoidance
- Increased participation by trades
- Root cause identified
- Roll-up reports available in real-time

BEST IN CLASS

Cloud

PREDICTIVE ANALYTICS

- Real-time monitoring of program conformance
- Safety resources available to all on-site workers
- Root cause analysis
- Identify potential hazards & at-risk trades
