

Environmental Policy Statement

Imagination undertakes a range of activities that may have an effect on the environment.

We care about the protection of the environment and are committed to the improvement of our environmental performance by:

Operating in an ethical and responsible manner

- Complying to all relevant legislation and other voluntary obligations relating to the environment
- Ensuring the responsible use of energy throughout our business operations
- Implementing this policy through our business processes to help ensure continued certification to ISO 14001:2015

Preventing pollution

- Disposing of waste safely and responsibly
- Providing a safe workplace and ensure we have appropriate safety and emergency equipment

Reducing waste

- Reducing the level of our waste that ends in landfill, by reducing overall volumes of waste produced
- Promoting reuse and recycling initiatives

Educating our clients, suppliers and staff

- Encouraging our clients to consider sustainable options
- Influencing our supply chain where possible to minimise materials or processes that may be harmful to the environment
- Communicate this policy throughout the organisation and provide training to relevant staff
- Membership of and training by isla, a non-profit organisation founded as the event industry's response to the climate crisis
