# A-Levels Program subject lists

The A-Level curriculum is a British high school program in which students normally select three A-Level subjects to be studied over a two-year period with final exams at end of year 2. Students studying further math/self-taught native language will take four A-Level subjects.

## **Mathematics**

- Mathematics
- Further Mathematics

## **Social Science**

- Business Studies
- Economics
- Psychology

## **Science**

- Biology
- Chemistry
- Physics

## **Language**

- English/IELTS preparation
- Self-taught Native Language \*

## **Art**

- Art

\* Students can study their native language as a "self-taught" course and sit the A-Level exam. This is subject to availability of exams in each language.

Subject offerings subject to change based on availability
