EF Academy Oxford

A-Levels Program
Subject List

The A-Level curriculum is a British high school program in which students normally select three A-Level subjects to be studied over a two-year period with final exams at end of year 2. Students studying further math/self-taught native language will take four A-Level subjects.

Mathematics
- Mathematics
- Further Mathematics

Humanities
- Art
- Psychology
- Business Studies
- Economics
- Media Studies *

Science
- Biology
- Computer Science
- Chemistry
- Physics

Language
- English/IELTS preparation
- Self-taught Native Language **

Art
- Art

* As we are exploring demand, this course is subject to the number of students who sign up.

** Students can study their native language as a “self-taught” course and sit the A-Level exam. This is subject to availability of exams in each language.

Subject offerings subject to change based on availability.
