SITE USER ROLES

Below, you can find a breakdown of the different hierarchical roles that can be assigned to a user from the backend side, via the API. From left to right, the roles are displayed from the lowest- to the highest-hierarchical role. You can find the role IDs underneath each role.

Permissions	Site Guest (site_guest)	Site User (site_user)	Site Super User (site_super_user)	Site Admin (site_admin)	Site Owner (site_admin + owner flag)
Generate Digital Key	✅	✅	✅	✅	✅
