

MARSHALLING OF AIRCRAFT ONTO STAND

ASA REF: -	17/21	DATE OF ISSUE: -	24 th September 2021	EFFECTIVE DATE: -	24th September 2021
-------------------	-------	-------------------------	---------------------------------	--------------------------	---------------------

Marshalling of Aircraft onto Stand

It has been identified through safety monitoring that Aircraft have been seen to be marshalled past their nosewheel markings (where applicable).

This is a reminder to all marshallers that where an aircraft nosewheel marking is designated this must be adhered to when marshalling aircraft. There is currently a live exception detailed in OAN 17/21 for East Apron stands 70-73 all aircraft types and stand 78 for b767-200 only.

All marshalling licence holders, please familiarise yourself with the stands markings you are marshalling onto prior to controlling the aircraft.

If you have any questions, or require further information please contact the Airfield Operations Supervisor on: 07880 787543

END.
