

## IN 12-2021- FAIRIES APRON ACCESS

IN REF:-

12-2021

DATE OF ISSUE:-

13/09/2021

### 1.0. SUMMARY

This information notice is to politely remind all MAG and third party airside operators that the hatched and grass areas around Fairies Apron gates must be kept clear at all times.

### 2.0. PROCEDURE

Airfield Security have been receiving a large volume of calls due to vehicles and pedestrians entering the hatched area, which is causing the alarm to trigger.

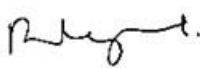

The Fairies Apron cook gates can only be operated by airfield security for access from the critical part to the hangar/Western Maintenance Area and back to airside. This is only for approved aircraft and for any other pre-arranged access requirements.

Please be aware that the white hatched areas are covered by motion detection sensors and will continue to alarm when unauthorised access is detected.

For access, any requests must be made in advance to the Airfield Security via 07958876007.

### 3.0 FURTHER INFORMATION

Please contact Airfield Security via 07958876007.
