

Jersey membership benefits

IoD Jersey has over 600 members from all sectors of the business community and is at the forefront of promoting business and ethical leadership in Jersey.

IoD Jersey has a significant voice and lobbies government on behalf of its members. The Institute also sets the highest standards for corporate governance, through its professional training programmes.

We believe that better directors build better organisations and better organisations build a better world.

We also believe it is the responsibility of every business leader to support cultures that promote inclusion and diversity and ESG priorities - these organisations not only perform better, but give back more to their people, their stakeholders and society.

What's in it for you?

Connections

Networking

Join one of the world's largest professional networks.

Events

Free members-only networking events every year and discounted rates at all other events.

Members Hub

An opportunity for members to promote news items on the IoD Jersey website.

Profile Opportunities
