

Symposium 2025

Accelerate the innovation of engineering

7 October, 2025

**The gap is growing between
ambition and execution.**

Hence, this year theme is chosen

**Accelerate the innovation of
engineering**

Innovate or drown

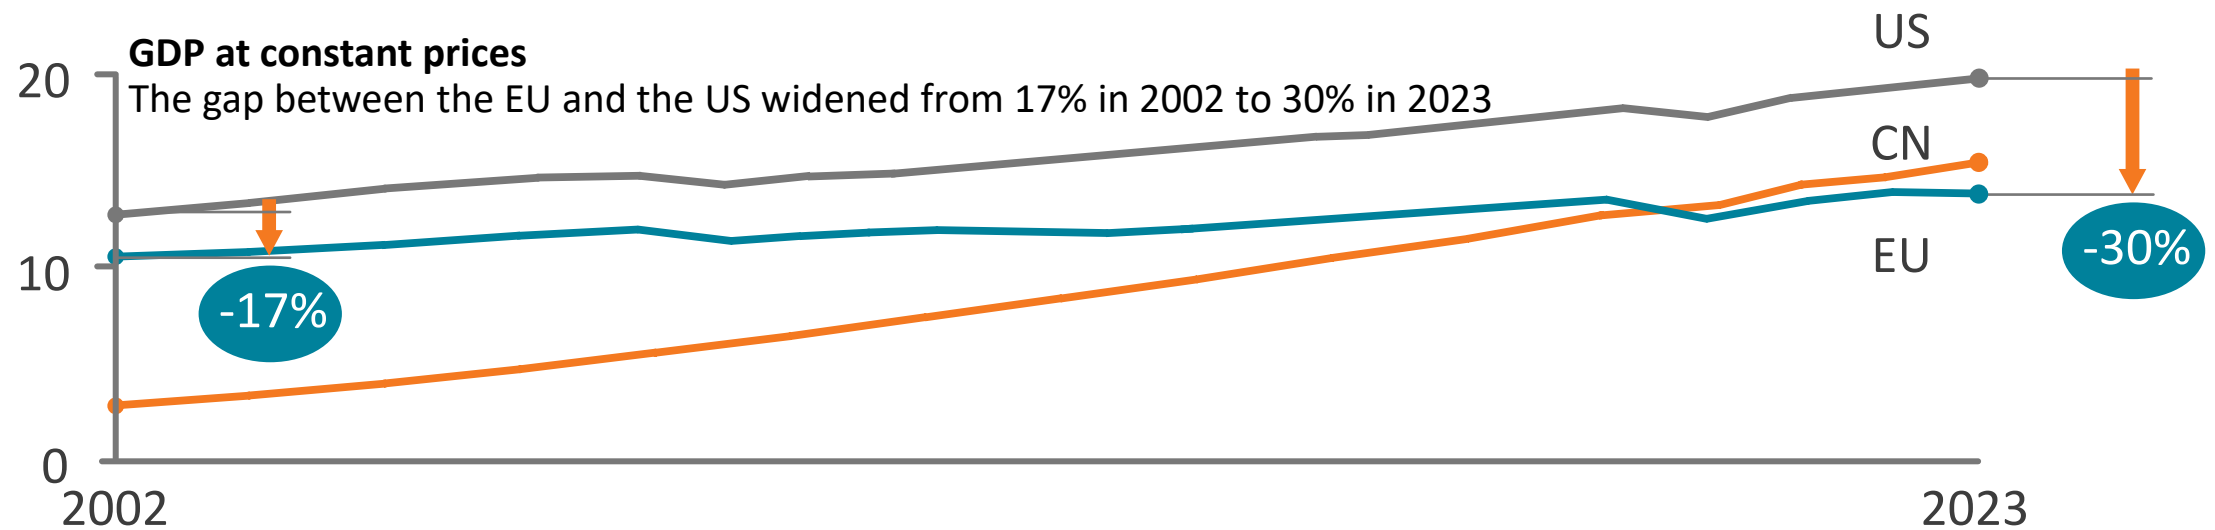

**“Without decisive action, Europe risks entering
a period of slow agony.”**

*Mario Draghi,
former President European Central Bank*

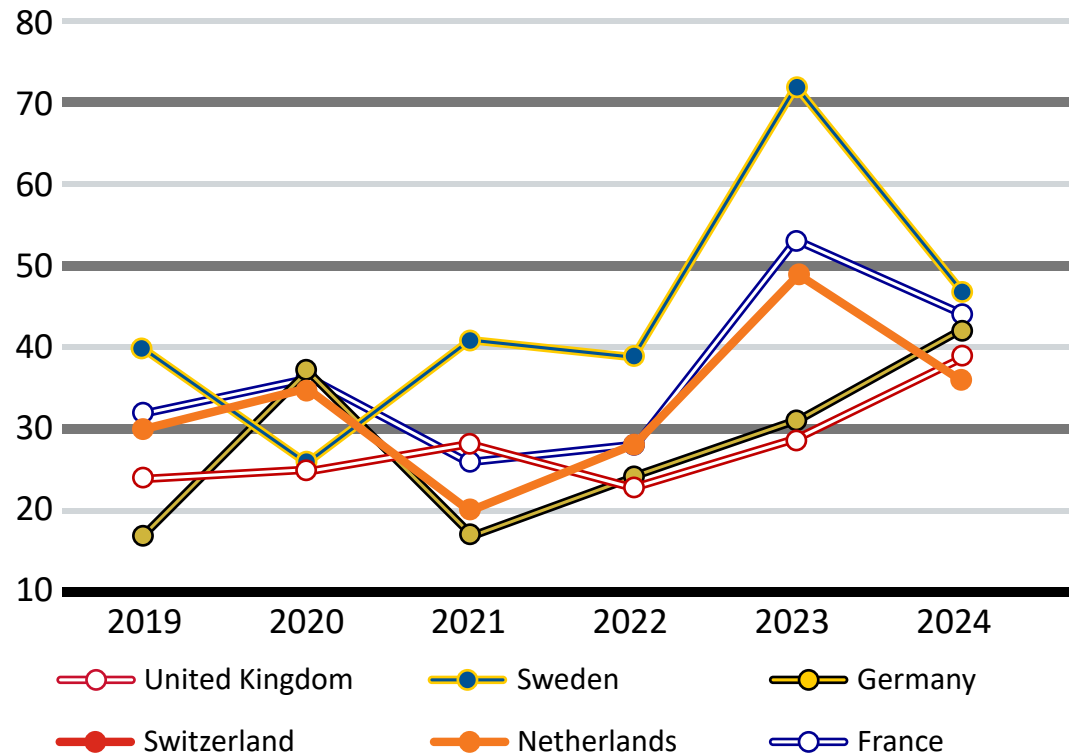

European efforts against a global market

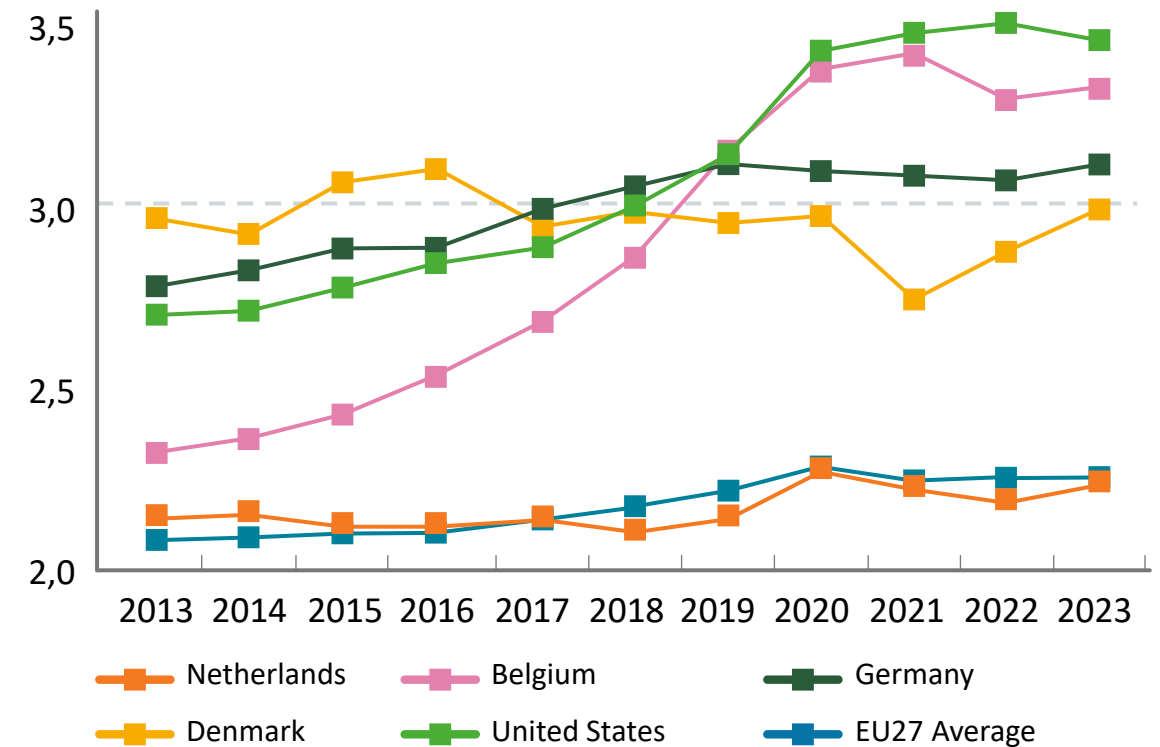

European efforts against a global market

Share of deep tech investments

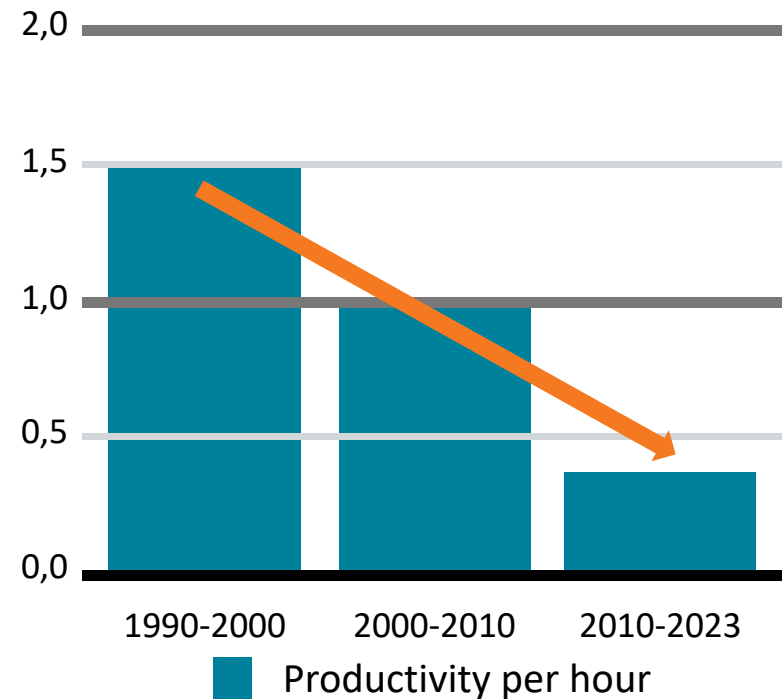

Annual growth in labor productivity (with trend), in %

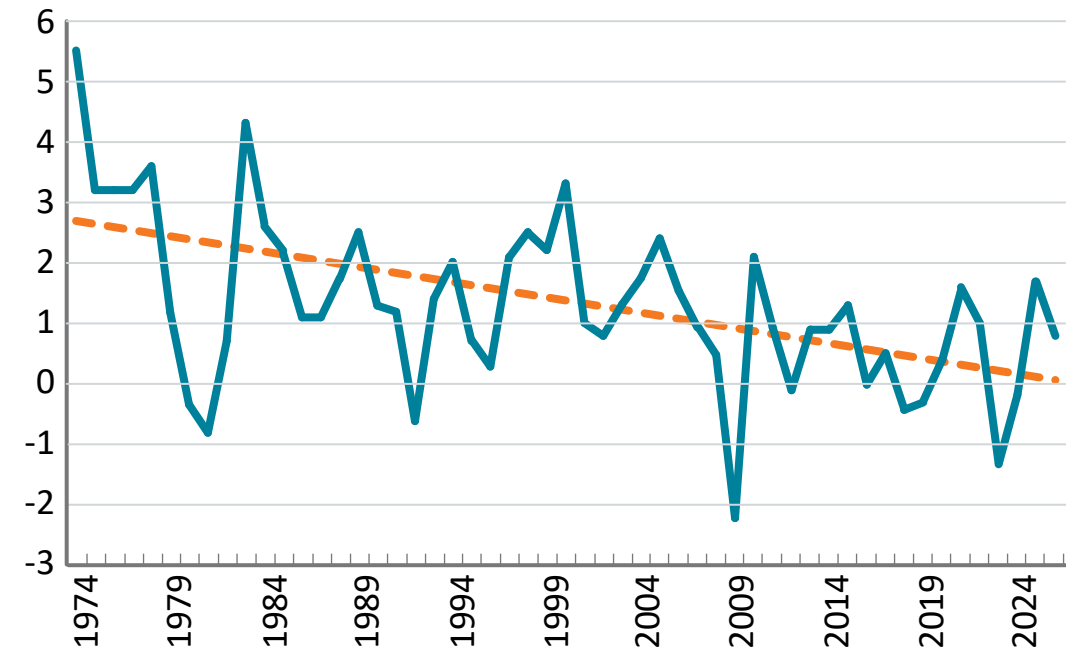

THE NETHERLANDS STRONG PARTICIPATION, WEAK PRODUCTIVITY

Development of labor productivity in the Netherlands in %

Annual growth in labor productivity (with trend), in %

A conceptual image featuring two hands reaching towards each other in the foreground. In the background, a large, complex mechanical structure with a glowing blue, radial pattern is visible, set against a dark, industrial-looking environment. The overall color palette is dominated by teal and blue tones.

**Together we will build
smart tools and smarter methodologies
to double the engineering productivity.**
