

Rethinking Software Ecosystems

12 - 16 January 2026, Leiden, the Netherlands @omega

Topics

- Build a global, cross-disciplinary network of experts
- Exchange practical experiences and novel research ideas
- Identify key challenges in software supply chains and dependency management
- Define future use cases and directions for trustworthy software ecosystems
- Develop a collaborative research and practice roadmap for the next five years

Scientific Organizers

- Sebastian Proksch, TU Delft
- Lina Ochoa Venegas, TU Eindhoven
- Rosilde Corvino, TNO
- Stefano Zacchiroli, Télécom Paris
- Diomidis Spinellis, AUEB & TU Delft

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions. For registration see: www.lorentzcenter.nl
