

WINTER SAFETY.

AT WORK CHECKLIST.

Are your employees safe in all weathers? With our „Guide to the optimum winter service“ for sure! We have compiled useful tips and checklists for your operational winter service. Learn more about which products you should have on hand for the cold season.

HAVE YOU THOUGHT OF EVERYTHING?

- ☐ Outline who is responsible for putting winter safety precautions in place around your premises
- ☐ Specify the responsibilities for grit spreading activities
- ☐ Define all other safety precautions necessary
- ☐ Ensure all employees have been trained on your winter safety procedures
- ☐ Ensure sufficient spreading material is available on your premises to ensure all entry points, walkways and car parks are free from ice
- ☐ Ensure the spreading material is easily accessible and stored in dry conditions
- ☐ Ensure weatherproof containers are installed at all central locations
- ☐ Have the right products on hand to ensure smooth and slippery floors can be secured and hazardous areas can be clearly marked.
- ☐ Have more than enough stock of weather resistant absorbents in the easy to access locations
- ☐ DENSORB oil granules are also suitable in winter for the absorption of oils and lubricants - even in slush and snow

THESE SUPPORTERS ARE INDISPENSABLE FOR YOUR COMPANY DURING WINTER:

<input type="checkbox"/>	Grit containers	<input type="checkbox"/>	Thermal gloves
<input type="checkbox"/>	Grit trolleys	<input type="checkbox"/>	Visibility clothing
<input type="checkbox"/>	Snow shovel	<input type="checkbox"/>	Safety shoes
