STACKING RACKS FOR SAFE STORAGE AND DISPENSING OF HAZARDOUS SUBSTANCES.

SAFE STORAGE AND DISPENSING OF HAZARDOUS SUBSTANCES IN DRUMS, CANISTERS AND SMALL CONTAINERS.

CAN BE INDIVIDUALLY COMBINED - EASY SELF-ASSEMBLY

- Plastic spill pallet: for the legally-compliant storage of substances in all water hazard classes, highly resistant to many aggressive chemicals such as acids and alkalis
- Steel spill pallet: for the legally-compliant storage of substances in all water hazard classes and flammable liquids (H224-226)

- 1 Can be stacked 3 high
- 2 Sturdy, galvanised design
- 3 For combination with a spill pallet, in steel or plastic, optional grid
- 4 With forklift pockets for easy handling

COMBINE INDIVIDUAL STACKING RACKS.

TOGETHER WE'LL FIND THE SOLUTION FOR YOUR INDIVIDUAL REQUIREMENTS.

Operational safety and the satisfaction of our customers and their employees are our top priorities. Our highly motivated and competent team offers fast, comprehensive and reliable advice that takes into account all the relevant aspects.

On the phone, via video conference or on site - you can trust us.

Did you know that you can also use our on-site consultation service free of charge? Our area sales manager will come to your company, carry out an analysis and advise you on your situation, offering you the perfect solution. This service is also guaranteed to be free of charge; travel, advice and information materials are all included.

Advantages at a glance:

- Free advice from experienced specialists on your individual requirements
- Needs-based solutions based on on-site analysis
- Practical one-to-one support directly from the developer and manufacturer
- A personal contact for all your questions
- Recommendations, comprehensive services, and useful tips for daily tasks
- The great feeling of being fully protected

WE'D LOVE TO MEET YOU!

ADVICE FROM DENIOS. PROFESSIONAL, INDIVIDUAL, FREE OF CHARGE.
