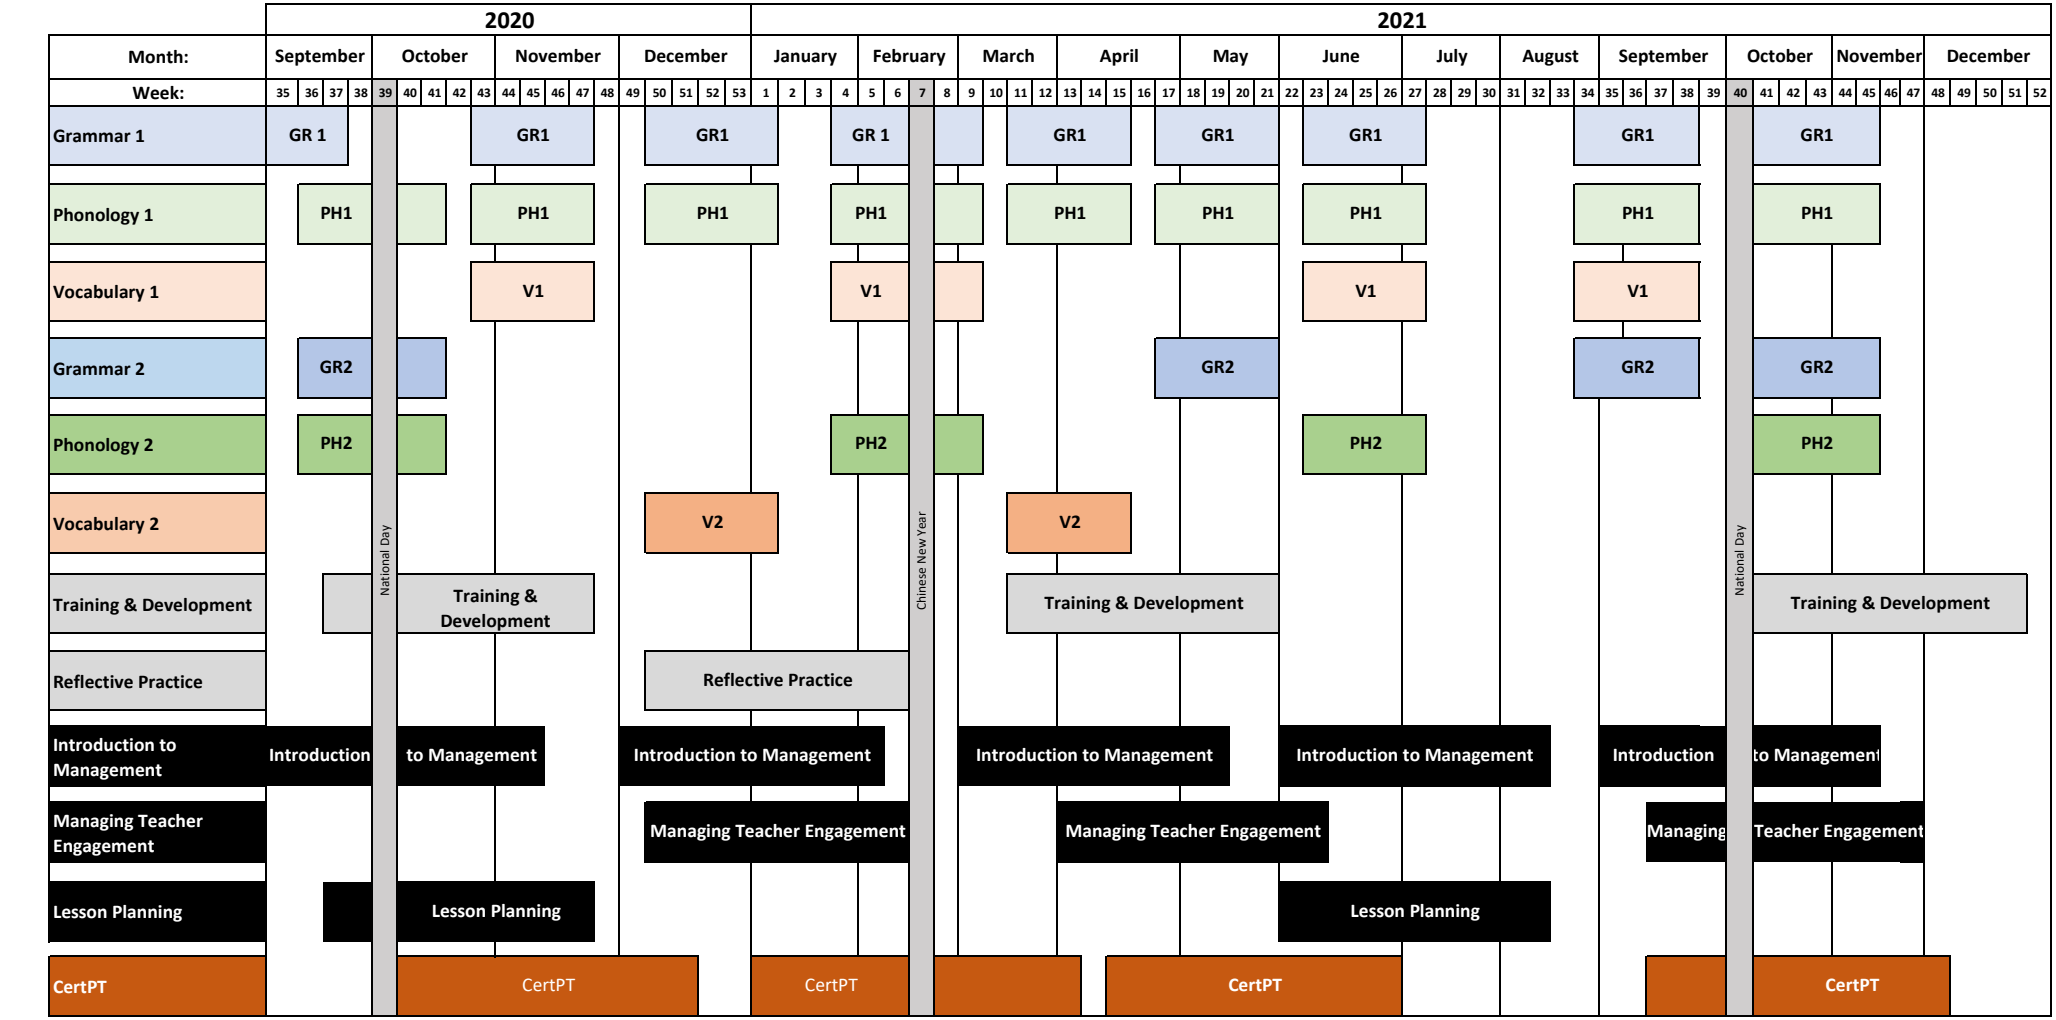
TRT Distance Learning Online Training Courses

TOWARDS YOUR FUTURE TRT

TRT runs a series of fully online Distance Courses for EF teachers across China. These include 5- and 10-week courses, each focusing on a different area of teaching and academic management. Tasks take about 3-5 hours per week including input (reading and video) followed by application in your own work. Learning from each other is strongly encouraged, and each week there is also the chance for pair/groupwork or discussion and reflection.


See below for the calendar for the rest of 2020 and 2021. More information (and a link to application forms) can be found on the TRT training website (**trttraining.net**) by scanning the QR code on the right:
