

HOW THE ARMY CAN HELP YOUR SCHOOL OR COLLEGE MEET THE GATSBY BENCHMARKS

1. A STABLE CAREERS PROGRAMME

We're here to support your careers education through STEM (Science, Technology, Engineering and Maths) activities, team-building and leadership sessions, life skills and values-based workshops, as well as inspiring talks and personal development challenges — all delivered in a way that helps young people think about their future with confidence.

2. LEARNING FROM CAREER AND LABOUR MARKET INFORMATION

We offer an interactive presentation that brings to life seven career streams: Combat, Engineering, Logistics & Supply, Communications & IT, Music, HR & Finance, and Medical. It provides a real-world look at the variety of roles available and how they connect to life beyond the classroom.

3. ADDRESSING THE NEEDS OF EACH STUDENT

Our resources support inclusive careers learning, with adaptable content on STEM, employability, and character education — ready to meet the needs of your pupils.

4. LINKING CURRICULUM LEARNING TO CAREERS

Our Elite Skills Academy brings subjects to life through hands-on tasks that challenge problem-solving, teamwork, and creative thinking. We connect subjects like engineering, maths, and science to real-world scenarios, helping learners understand how what they study today links to future opportunities.

5. ENCOUNTERS WITH EMPLOYERS AND EMPLOYEES

Whether it's through workshops, careers fairs, or presentations, we create meaningful opportunities for students to meet serving soldiers and hear their stories. These are individuals who've stood where your students are now — and can offer real insight into what it's like to choose this path.

6. EXPERIENCES OF WORKPLACES

We offer a four-day Army residential that gives young people a genuine taste of what it's like to live and work as a soldier. Over the course of the programme, they'll build confidence, grow resilience, and develop skills they can carry with them — wherever life takes them next.

7. ENCOUNTERS WITH FURTHER AND HIGHER EDUCATION

We provide talks on Army Apprenticeships, Internships, Scholarships and Bursaries — helping students understand their options and what support is available. The Army is the largest Apprenticeship provider in the UK.

8. PERSONAL GUIDANCE

We offer workshops that complement your guidance offer — focusing on employability, confidence, and decision-making for life after school/college.
