

ADJUVANT

Ampersand[®]

Deposition Aid & Humectant & Evaporation Control

PRINCIPAL FUNCTIONING AGENTS:

Sorbitol, Glycerol, Polysaccharide Gums	20.3%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS	79.7%
TOTAL	100.0%

Formulated using natural ingredients.

KEEP OUT OF REACH OF CHILDREN

SEE BACK FOR MIXING AND APPLICATION INSTRUCTIONS

PATENT PENDING

CA Reg. No. 92988-50001-AA

NET CONTENTS: 2.5 gal (9.46L)

MANUFACTURED FOR: ATTUNE AGRICULTURE, LLC.
751 Park of Commerce Dr., Suite 106
Boca Raton, FL 33487

For Organic Use

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry place in the original container. Do not store near heat or open flame. Keep the container tightly sealed. For best results, Ampersand® should be used at or above 50°F. For temperatures below 50°F, a longer mixing time is recommended to ensure best dispersion of the adjuvant. **DO NOT FREEZE.**

DISPOSAL: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent materials. Scrape up and dispose in accordance with Product Disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: The product container should be triple rinsed during mixing and loading. Recycling decontaminated containers is the best option of container disposal.

ENVIRONMENTAL HAZARDS: Do not contaminate water sources by cleaning of equipment or disposal of wastewaters. **FOR A COPY OF THE AMPERSAND SDS PLEASE CALL CHEMTEL: 800-255-3924.**

GENERAL INFORMATION

Ampersand is a spray adjuvant that employs hydrocolloids to manage water in tank mixed agricultural products. Pesticide manufacturers' label statements for use should be followed at all times. Spray Deposition: Ampersand improves tank mix deposition by increasing the amount of the spray volume on the targeted surface. This is accomplished by reducing droplet evaporation that can occur as each droplet leaves the spray nozzle and travels to the target surface. Excessive droplet evaporation can contribute to production of small drops (fines) which are prone to drift and may not reach the target. Large droplets often either bounce off the target or break up (shattering) into smaller droplets which may or may not adhere to the target surface. Ampersand contains ingredients that cause droplets to adhere to the target surface and reduce shattering.

DIRECTIONS FOR USE

Ampersand has exhibited excellent plant safety and is intended for use with herbicides and insecticides on a wide variety of crops including: row crops, fruits and vegetables, and ornamental applications. **NOT FOR AQUATIC USE.** The suggested use rates are 0.125% to 0.5% (Ampersand Volume: Total Spray Volume) or 1 pint to 2 quarts of Ampersand per 100 gallons of spray volume. For improved spray deposition, use 0.125% to 0.25% (1 pint to 1 quart Ampersand per 100 gallons).

MIXING: Add water to the mix tank first. Allow Ampersand to circulate through the tank for a few minutes to ensure complete dispersion of the adjuvant. All other tank mix ingredients should then be added as per label recommendations.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

Before Buying or Using the Product, read the Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By purchasing this product, the buyer accepts the following Conditions of Sale and Limitation of Warranty and Liability. Attune Agriculture LLC expressly rejects any different or additional terms. If the terms are not acceptable, return the product unopened and the full purchase price will be refunded. The product composition and directions on this label are believed to be accurate and reliable. Directions should be carefully followed. Attune Agriculture LLC warrants that this product is reasonably fit only for purposes stated on this label when used according to the Directions for Use and under normal conditions of use. Insufficient control of pests or injury to crops to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow label directions or good application practices, all of which are beyond the control of Attune Agriculture LLC. **ATTUNE AGRICULTURE LLC HEREBY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OF THE SAMPLE PRODUCTS OR THEIR FITNESS FOR A PARTICULAR PURPOSE. THE BUYER'S OR USER'S EXCLUSIVE REMEDY FOR ANY LOSS OR LIABILITY CAUSED BY USE OF THIS PRODUCT IS HEREBY LIMITED TO THE PURCHASE PRICE OF THE PRODUCT. ATTUNE AGRICULTURE LLC DOES NOT ACCEPT ANY LIABILITY FOR INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT.**
