

Cookie Charter

Petiole Asset Management AG

Version July 2020

Petiole Asset Management AG's website uses cookies to provide you with a better user experience. By using this website, you agree to the use of cookies.

1. What are cookies?

Cookies are a small text file containing information that are located in browser directories and downloaded to any internet-using device – such as a computer, tablet or mobile phone – when a website is visited by a user. They are used by web developers to help users navigate websites efficiently and perform certain functions.

Browser cookies can have the following characteristics:

- **Session cookies** are used by the server to store information about a user's page activities so that a user can easily pick up where she/he left off on the server's pages. Session cookies exist only in temporary memory: Web browsers normally delete session cookies when the user closes the browser.
- **Persistent or tracking cookies** expire at a specific date or after a specific length of time, instead of expiring when the web browser is closed as session cookies do. This means that, for the cookie's entire lifespan, its information will be transmitted to the server every time the user visits the website or every time the user views a resource belonging to that website.
- **First part cookies** are set by the website being visited.
- **Third party cookies** are set by third parties separate from the website being visited.

2. Why do we use cookies?

We use cookies for the following purposes:

- **Performance:** We may use performance-related cookies to assess the use of our website in order to improve its structure, content and functionalities. Our website uses the cookie Google Analytics which collects information and reports website usage statistics
- **Session management:** Cookies may be used to authenticate users, the features used by them and the part(s) of our website that can be accessed by them.
- **Personalization:** Cookies can be used to remember information about users in order to show relevant content to such users over time

Our website may also contain links to external social networks: the use of such links and social networks may result third party cookies being installed. Please note that those social networks are responsible for the personal data processing they perform using cookies. We have no control over the process used by social networks to collect information about your browsing on our site. Those social networks apply their own privacy policies which you should consult on the relevant website.

3. Your cookie preference

You may refuse the use of cookies at any time by deleting them. This can be done through the setting of your web browser. Please be aware that by refusing the use of some or all cookies, this website might not function in an optimal way.

To opt-out from the Google Analytics cookie, you may download and install the Google Analytics opt-out browser add-on. This add-on instructs the Google Analytics JavaScript to prohibit sending information to Google Analytics.

4. Data protection

Please refer to our Data Protection Charter for more information on the use of private data and the protection related thereto.
