

Dear Valued Customer,

We would like to reassure you that Alpha Laboratories Ltd is closely monitoring the changing economic and political situations across the world and proactively taking steps to minimise disruption to our supply chains.

We have a large, UK-Based warehouse, to reduce reliance on logistics and freight forwarders, as global transport networks work to alleviate the pressure on restricted air and shipping channels.

We can assure you that our stock levels are well managed, but should new challenges arise, amid increased demand and closing borders, we will do everything we can to maintain supply of the essential laboratory and diagnostic products you require.

Our network of suppliers and logistics partners are regularly communicating updates, to allow accurate planning and supply-management.

Should you have any questions or concerns, please do not hesitate to contact us.

Yours sincerely,

Alpha Laboratories Ltd.

Michelle Holland  
Managing Director
