STRECK

Para 12® Extend

CE

Para 12 Extend is a whole blood haematology control which offers complete assay values for the three-part white blood cell differential. It features vials with pierceable caps for autosampling and is available in low, normal and high levels. Para 12 Extend is compatible with Abbott, Beckman Coulter, Erma, Horiba Medical, HTI Diagnostics, Mindray, Nihon Kohden and Siemens three-part haematology analysers.

Features

+ Whole blood three-part differential haematology control
+ Compatible with the most popular three-part differential haematology analysers
+ Available in three clinically significant levels
+ 30-day open-vial stability
+ Plastic vials with pierceable caps for analyser autosampling
+ 190-day closed-vial stability

Benefits

+ Helps clinical laboratories meet quality requirements
+ Fewer lot-to-lot correlations save time and resources
+ Established assay ranges provide less room for error
+ Access to *STATS*®, a free interlaboratory quality control program with peer group data comparison and online submission
+ Long shelf life reduces the number of shipments and associated costs

Ordering information

Level	Description	Catalog#
Normal	6 x 2.5 mL	218758
Low, Normal, High	18 x 2.5 mL	218750
Low, Normal, High	18 x 4.5 mL	218770
