

HELLO

LAMP POST

Hello Lamp Post brings cities to life.

Inviting people to playfully interact with their built environment, whilst collecting data and insights to better inform the development and planning of cities of the future.

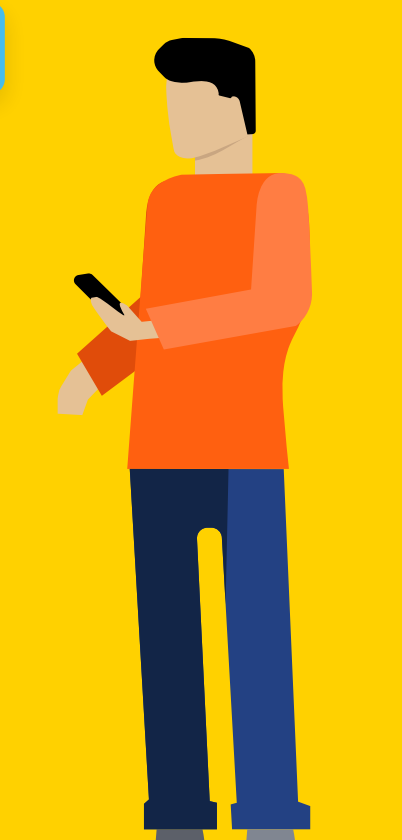

Hello Bench #1

Good evening. What a nice, warm day! Great seeing you again, thanks for coming back! Can I ask - if you were Mayor for the day, what would you do?

I'd bring a tram network into place! I think trams would be great around here again!

That's cool. Someone told a friend nearby "I'd make more places to relax in at train stations". If you could improve the area around me, what would you add?

Faster wifi

HOW IT WORKS

CITIZENS SEE SIGNAGE

1.

Signs next to objects catch people's attention.

SAY HELLO

2.

To start a conversation the user texts "Hello Bus Stop #123" on SMS, WhatsApp or Facebook Messenger.

SHARE & LEARN

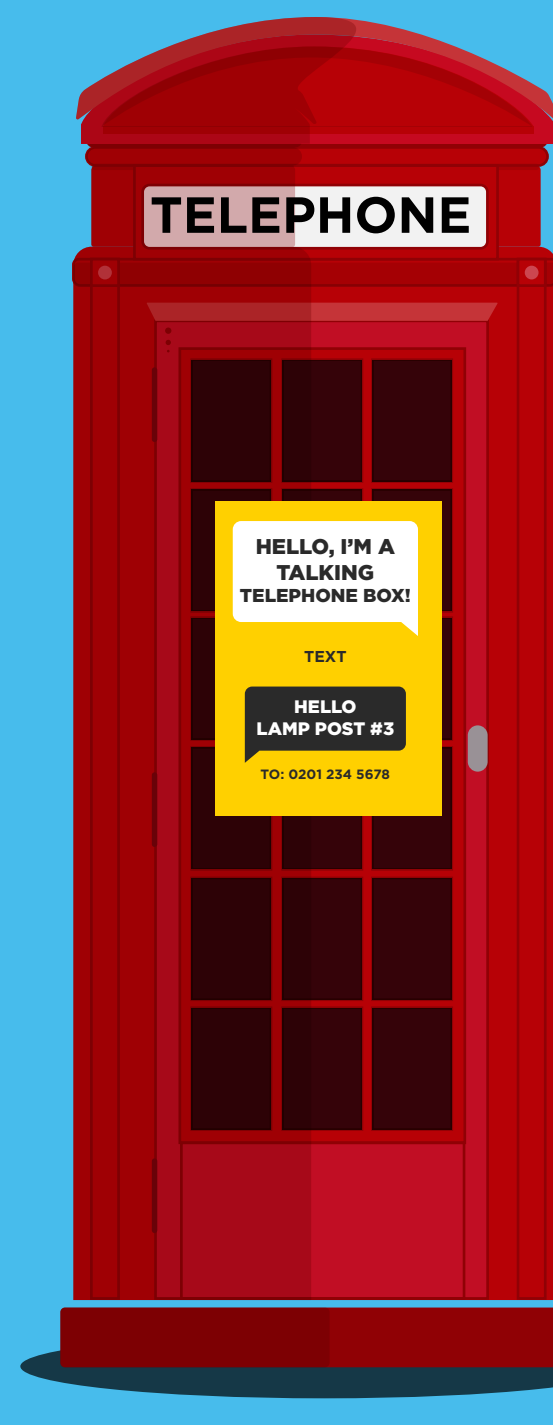

3.

Citizens share their views and learn about key topics in their city.

KEEP TALKING

4.

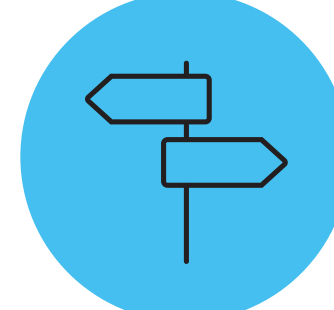

All street furniture has a physical reference code already assigned to it. Citizens are encouraged to awaken any other object.

USE CASES

Community Engagement

Placemaking & Way-finding

Public Consultation

Tourism & Cultural Storytelling

EXAMPLE THEMES

CLIENTS INCLUDE

SOUTHWARK COUNCIL

UNIVERSITY OF BRITISH COLUMBIA

INTU SHOPPING CENTRES
