Methodology

The Ookla Speedtest Award for Best Network is based on the Speedtest Connectivity Score™, providing a reliable measure of the overall fixed and mobile network connected experience. Speedtest Connectivity Score combines various real-world network performance metrics, such as speed, latency, and quality of experience for everyday activities like web browsing and video streaming. This methodology ensures that the results reflect a user's experience across multiple activities.

Speedtest Connectivity Score Components:
 Speed Score: 50%
 Web Browsing Score: 25%
 Video Streaming Score: 25%
