About Slättö and Slättö Core+

Business concept of Slättö

Since the beginning, Slättö's way of working is based on a simple principle: to combine profound knowledge with strong commitment to our investments. We understand and care about the assets we develop and manage. We create and attend to people's homes and environments they work in or visit – a mission that entails a great deal of responsibility. We have a proven ability to identify and capture development potential in existing properties as well as in unexploited areas. Together, we create more attractive environments for our customers and for the society.

Our skilled and entrepreneurial team has extensive experience from transaction, management, project development and financing. Economic and social sustainability is a fundamental precondition for us. Over time, Slättö has an ambition to grow in both existing and in new investment categories. Our vision is to become the most respected investor in our chosen strategies.

Our alternative investment funds are in turn managed by Slättö Förvaltning AB. The Company is under the supervision of Finansinspektionen (Sweden's financial supervisory authority) since 2016 (DNR 15-14987). A business plan is developed for each fund covering type of investment (sector and geographical market), risk analysis, financial conditions and time horizon.

Value-creating fund

Slättö Core Plus AB was established in 2019. The Fund is aimed mainly at institutions, trusts and family offices. It has a broad investment mandate with current emphasis on residential properties, logistics and warehouse properties and selective exposure to public-use properties. The Fund focuses primarily on cash-flow properties but can also invest in project development to increase potential returns.

The overall strategy is to create a well-diversified portfolio with a balanced risk profile that generates stable return and long- term value growth. The emphasis is on investments in Swedish growth regions but the Fund also has a mandate to invest elsewhere in the Nordic region.
