

THAMES VALLEY FERTILITY FORMULARY

Description	Item	What does it do?	When is it used?
Tablets	AZITHROMYCIN 250mg	Antibiotic	As required
Tablets	CODEINE PHOSPHATE 30mg TABLETS	Analgesia	As required
Tablets	ESTRADIOL 2mg TABLETS (PROGYNOVA)	Oestrogen to build up endometrium	As required
Tablets	PARACETAMOL 500mg CAPLETS (TTOs)	Analgesia	As required
Tablets	Ibuprofen 200mg	Analgesia	As required
Tablets	Letrozole 2.5mg	To aid ovulation	As required
Tablets	Sildenafil 50mg	To Aid endometrial lining development	As required
Tablets	Provera 10mg	Progesterone	As required
INJECTIONS	ADRENALINE 1:10000 10ml INJECTION	Cardiac Arrest situations	As required
INJECTIONS	ADRENALINE (EPINEPHRINE) 1 :1000 1mg in 1ml SYRINGE (ANAPHYLAXIS)	Anaphylaxis	As required
INJECTIONS	AMIODARONE 30mg/ml 10ml INJECTION	Arrhythmias	As required
INJECTIONS	ALFENTANIL 500mcg/ml	Conscious sedation for clinical procedures	As required
INJECTIONS	ATROPINE SULPHATE 600micrograms in 1ml INJECTION	Cardiac arrest/Bradycardia	As required
INJECTIONS	BUPIVACAINE 0.5% INJECTION 10ml	Local anaesthetic	As required
INJECTIONS	SUPREFACT 5.5mg in 5.5ml INJECTION	Agonist/pituitary suppression/IVF cycle	As required
INJECTIONS	CEFTRIAXONE 1g INJECTION	Antibiotic	As required
INJECTIONS	CHLORPHENAMINE 10mg IN 1ml INJECTION	Antihistamines/Allergic reaction	As required

Description	Item	What does it do?	When is it used?
INJECTIONS	CO-AMOXICLAV 1000/200 (1.2g) INJECTION amoxicillin 1g & clavulanic acid 200mg	Antibiotic	As required
INJECTIONS	CYCLIZINE 50mg IN 1ml INJECTION	Antiemetic	As required
INJECTIONS	DOXAPRAM 100mg in 5ml	Respiratory distress/apnoea	As required
INJECTIONS	EPHEDRINE 30mg in 1ml INJECTION	Airway obstruction	As required
INJECTIONS	FLUMAZENIL 500microgram INJECTION	Reversal of sedative effects in clinical procedures	As required
INJECTIONS	GANIRELIX 250micrograms/0.5ml solution (FYREMADEL)	Antagonist/pituitary suppression/IVF cycle	During IVF cycle to suppress ovulation
INJECTIONS	GELOFUSINE INFUSION 500ml	Low blood volume infusion	As required
INJECTIONS	GENTAMICIN 80mg in 2ml INJECTION (AMPOULES)	Antibiotic	As required
INJECTIONS	GLUCAGON 1MG	Hypoglycaemia	As required
INJECTIONS	HEPARIN SODIUM 5000units in 1ml INJECTION	Antithrombotic drug	In laboratory to prevent clotting of aspirate
INJECTIONS	HUMAN MENOPAUSAL GONADOTROPHIN 75iu INJ (MENOPUR)	Gonadotrophin stimulation	During stimulation in an IVF cycle
INJECTIONS	HYDROCORTISONE SOD SUCCINATE 100mg INJECTION	Acute hypersensitivity reactions/anaphylaxis	As required
INJECTIONS	LIDOCAINE 1% in 10ml INJECTION	Local anaesthetic	As required
INJECTIONS	LIDOCAINE 2% in 5ml INJECTION	Local anaesthetic	As required
INJECTIONS	LUBION 25mg solution	Supports any pregnancy. Maintains the lining of the womb.	After Embryo Transfer
INJECTIONS	Magnesium Sulphate 500mg/ml	Cardiac Arrest	As Required
INJECTIONS	MIDAZOLAM 1mg/ml INJECTION	Conscious sedation for clinical procedures	As required
INJECTIONS	NALOXONE 400mcg in 1ml INJECTION	reversal of sedative effects in clinical procedures	As required
INJECTIONS	ONDANSETRON 4mg IN 2ml INJECTION	Antiemetic	As required

INJECTIONS	PARACETAMOL 1000mg IN 100ML INFUSION	Analgesia following clinical procedures	As required
INJECTIONS	PROPOFOL 200mg IN 20ml (1%) INJECTION	Conscious sedation for clinical procedures	As required
INJECTIONS	PRONTOGEST 100MG IM	Supports any pregnancy. Maintains the lining of the womb.	As required

Description used?	Item	What does it do?	When is it
INJECTIONS	SALBUTAMOL 5mcg in 1ml INJECTION	Airway obstruction	As required
INJECTIONS	SODIUM CHLORIDE 0.9% PLASTIC AMP 10ml	Ampoules to flush cannulas	As required
INJECTIONS	TRANEXAMIC ACID 500mg INJECTION	Antihemorrhagic/Antifibrinolytics in bleeding disorders	As required
INJECTIONS	WATER FOR INJECTION PLASTIC AMP 10ml	Ampoules to mix powdered medication for IV administration	As required
ENEMAS SUPP & PESS	Cyclogest 400mg PESSARIES	Supports any pregnancy. Maintains the lining of the womb.	After Embryo Transfer
Pessary	Utergestan 200mg	Progesterone supplement	As required
suppositry	Diclofenanc 100mg	Analgesia	As required
TRANSDERMAL PATCHES	EVEROL 100mcg PATCHES	Oestrogen to build up endometrium	As required
MISCELLANEOUS	CHLORHEXIDINE 2% IN 70% IPA PINK 500ml	Hand disinfectant	As required
MISCELLANEOUS	CHLORHEXIDINE SURGICAL SCRUB 4% (PINK) 500ml	Hand disinfectant	As required
MISCELLANEOUS	LUBRICATING JELLY STERILE 5g SACHETS	Lubricant for instrument insertion	As required

MISCELLANEO US	MULTISTIX 8-SG	Urine testing sticks	As required
MISCELLANEO US	NORMASOL SACHETS 25ml	Sterile cleaning prior to procedure	As required
MISCELLANEO US	VIDENE IODINE ANTISEPTIC SOLUTION 250ml	Skin cleansers/antiseptics and disinfectants	As required
MISCELLANEO US	SALBUTAMOL 100mcg INHALER (CFC FREE)	Airway obstruction	As required
MISCELLANEO US	VIDENE ANTISEPTIC SOLUTION 10% 500ML	Skin cleansers/antiseptics and disinfectants	As required
INJECTIONS	CHORIOGONADOTROPIN ALFA 250mcg (6,500iu) PRE-FILLED PEN (OVITRELLE)	Gonadotrophin replacement used to mature oocytes prior to collection	To trigger maturing of oocytes during an IVF cycle
INJECTIONS	DESMOPRESSIN 4mcg/ml INJECTION	To reduce risk of bleeding for patients with clotting disorders	As required
INJECTIONS	FOLLITROPIN ALFA 300units PEN	Gonadotrophin stimulation	During stimulation
Description	Item	What does it do?	When is it used?
INJECTIONS	FOLLITROPIN ALFA 450units PEN	Gonadotrophin stimulation	During stimulation in an IVF cycle
INJECTIONS	FOLLITROPIN ALFA 900units PEN	Gonadotrophin stimulation	During stimulation in an IVF cycle
INJECTIONS	HUMAN MENOPAUSAL GONADOTROPHIN 1200u INJ (MENOPUR MULTIDOSE)	Gonadotrophin stimulation	During stimulation in an IVF cycle
INJECTIONS	HUMAN MENOPAUSAL GONADOTROPHIN 600u INJ (MENOPUR MULTIDOSE)	Gonadotrophin stimulation	During stimulation in an IVF cycle
INJECTIONS	SUXEMATHONIUM INJ 100mg	Neuromuscular blocking drugs/ only in emergency situation	As required
I.V.'S & IRRIGATIONS	POLYFUSOR HART SOLCO SODLAC CXTB 500ml INF (HARTMANN'S)	Fluid replacement IV following clinical procedure	As required
I.V.'S & IRRIGATIONS	POLYFUSOR SOD CHLOR 0.9% INFUSION 500ml	Fluid replacement IV following clinical procedure	As required

I.V.'S & IRRIGATIONS	SODIUM CHLORIDE 0.9% GLUCOSE 5% 500ml	Fluid replacement IV following clinical procedure	As required
