We calculate the costs for foreign insurances/uninsured care directly and request you to pay these costs prior to the treatment, preferably by card.

You must pay the costs of the examination/treatment yourself if:

- you do not have basic insurance;
- our clinic has not made any agreements with your health insurer about the care/policy provided
- you are undergoing treatment for which you are (partially) not insured
- you have a non-Dutch health insurance policy.

This list of rates may be subject to change. You cannot derive any rights from this.

***Additional surcharge for clients from abroad**

This declaration includes the extra costs we make for clients from abroad because the treatment requires more organization and coordination than for clients who live in the Netherlands. As these additional costs have not been included in the officially set tariffs we are forced to pass them on to you. This fee must be paid before the first visit to our clinic. You will get a refund if we cannot offer you a treatment after the first visit.
