

Registration form to start IVF or ICSI

Medisch Centrum Kinderwens

Fill out this form, save it and send it to startIVF@mckinderwens.nl as an attachment

Please send this form, after filling it out, to startIVF@mckinderwens.nl before 12 pm (noon) if your menstruation has truly started in the past 24 hours. If you are unsure if your menstruation has really started (not much blood loss, date does not match your expectations), please wait another 24 hours before registering.

Every day at 12pm (noon), we check the new registrations and carefully consider whether it is possible to let everyone who has registered actually start their treatment. Occasionally, we will need to delay a registration due to an overfull schedule (this may happen due to, for example, the COVID-19 restrictions). If this small chance were to occur in your case, this will of course be noted and you can be nearly certain that you will have a spot next month.

If you can start treatment, you will receive an invitation for a starting ultrasound. You can register a preference for a certain part of the day, which we will take into account as much as possible.
