# Work smarter with TeamworkAI

May 2026

# Your hosts

**Stephen O'Neill**  
Group AI Product Manager

**Renee Demaree**  
Customer Success Manager

# How to participate today

## Chat

Use the chat to say hello or leave a comment

## Emojis

Use emojis to show us your reactions

## Q&A

Use the Q&A to ask your questions

# Recording

**We are recording and it will be emailed  
in a few days - not to worry!**

# What we'll cover

## AI Project Wizard

Start projects faster with automated setup and intelligent templates.

## AI Smart Scheduler

Put the right people on the right work automatically with data-driven staffing.

## AI Teammates

Stay on top of every project without the endless check-ins or manual updates.

## Teamwork MCP

Experience the next generation of AI that acts on your behalf, not just advises.

**How much of your  
team's time last week  
went toward work that  
was about work?**

# Your 3 AI quick wins this week:

## 1. Use the AI Project Wizard on your next project

Even if it's a project you know inside out — see what it builds and compare it to your usual setup. Most teams are surprised by how close it gets, right out of the box.

## 2. Ask Scout to catch you up on an active project

Pick one you've been away from for a few days and see how fast Scout gets you up to speed. It's the kind of thing that immediately makes you wonder how you managed without it.

## 3. Connect the Teamwork MCP to your AI assistant

Whether your team uses ChatGPT, Microsoft Copilot, or Claude — get it connected to your Teamwork.com account and try giving it a real instruction: create a task, assign it to someone, set a deadline.
