

## KEBA continues to bring luck in Spain!

**KEBA and Spanish lottery company SELAE are continuing their existing successful cooperation, which has been going for more than 10 years, and have agreed on the supply of an additional 10,500 lottery terminals.**

Austrian automation specialist KEBA has won the public tender of Spanish lottery company SELAE (Sociedad Estatal de Loterías y Apuestas del Estado) for the supply of 10,500 new KeWin multimedia lottery terminals. Herbert Sandner, Head of KeWin Lottery Solutions division at KEBA says: *“We are delighted that the Spanish lottery company SELAE has put its trust in us and our products once again. Not least because long-term partnerships and customer satisfaction are paramount at KEBA.”*

### **Lotto games in Spain “made in Austria”**

Since the start of cooperation in February 2006, the Spanish company has now commissioned a total of nearly 25,000 lottery terminals from KEBA. All of the lottery collection points of the Spanish lotteries are therefore equipped with terminals “made in Austria”.

The outstanding product features such as the modularity and reliability of the KEBA systems and the outstanding cooperation and flexibility of KEBA are still crucial to the success of the Austrian automation specialists.

The signing of the new contract is the continuation of the long-term and successful cooperation between Spanish lottery company SELAE and KEBA.
